SANTA ANA, CALIFORNIA, WEDNESDAY EVENING, FEBRUARY 21, 1917.

50 CENTS PER MONTH

SOUNDS LONDON SUBMARINE WARNING

WILSON TO WHIP CONGRESS INTO LINE FOR BIG FOOD PROBE

Solons Shall Pass \$400,000 Appropriation, Determination of President

PLEA SENT EXECUTIVE BY HOUSEWIVES' BODY

Huge Profits Reaped In L. A. By Speculators, Charges Grocers' Secretary

WASHINGTON, Feb. 21.—Declaring that the food situation is "one of the gravest problems of the day," the Federal Trade Commission announced that it would not wait for a congressional appropriation but has started a probe. It is understood that Francis J. Heney will have charge.

WASHINGTON, Feb. 21.—President Wilson is determined Congress shall pass immediately the \$400,000 appropriation which the Federal Trade Commission has requested for the nationwide food-price probe he directed the commission and the Department of Agriculture to make.

It was stated officially at the White House today that the President will give his personal attention toward swinging Congress into line behind his food probe suggestion. He made this decision following receipt of news of the New York food riots.

As a result, administration leaders in Congress today began lining up forces to compel congressional acquiescence.

Representative Borah, in the House and Senator Borah in the Senate are expected to lead the fight with the charge that there is universal conviction that food prices are subject to wide-spread manipulation.

Senator Borah today demanded that Congress remain in session until adequate steps are taken to bring prices back to normal.

MAYOR MITCHELL HOLDS OUT AID PROMISE

NEW YORK, Feb. 21.—Mayor Mitchell this afternoon promised to do everything in his power to cope with the advance in foodstuffs.

Women calling today threatened to "starve on the city hall steps" unless action were taken.

The Housewives' League of America today telegraphed President Wilson to protect them against a Congress refusal to provide funds for a Federal foodstuffs probe, appealing to the President to use his influence in forcing through an investigation.

"A critical food situation is confronting the people of America,"

SPECULATORS REAP VAST PROFITS, CHARGE

LOS ANGELES, Feb. 21.—Fortunes are being made by speculators in this vicinity while the people are compelled to pay more and more for the necessities of life, is the allegation made today by Neal P. Olson, secretary of the Southern California Retail Grocers' Association. He declares that the present high prices here are partly due to the fact that large quantities of potatoes, onions, cabbage, carrots and eggs are being held for higher prices, and are being released only in small lots.

Olson cites one Los Angeles warehouse as containing 50,000 sacks of sugar. This, he says, is being held for eastern markets, and he states that the food in storage here today is approximately 300,000 sacks of sugar, 6000 sacks of coffee, 20 carloads flour, 20 carloads potatoes; 150 carloads of onions.

Meantime, this food is not being offered in the local market, and the current supply is fast dwindling. The speculators are reported to be purchasing still more, in anticipation of higher prices.

SANTA MONICA LOTS TO BE PLANTED

SANTA MONICA, Feb. 21.—The City Commission today agreed to plow vacant lots for vegetable gardens and offer prizes for the best gardens as a means of lowering the cost of living.

HOGS \$12.95, NEW MARK SINCE CIVIL WAR

CHICAGO, Feb. 21.—Hogs smashed all previous high prices by nearly a quarter of a dollar today, when the market opened at \$12.95 per hundred pounds. Pigs sold at \$11 per hundred weight. The prices are the highest since the civil war.

WHOLE OF CALIFORNIA SEEN IN BOYCOTT MOVE

SAN FRANCISCO, Feb. 21.—Agitation by housewives in Los Angeles in favor of a boycott against vegetables which, some allege, have been held

CELEBRATION PLANS FOR WASHINGTON'S BIRTHDAY COMPLETE

Citizens of Santa Ana and lovers of our country—the land our fathers loved,—we ask you to show your love and respect to the Father of Our Country, whose birthday occurs tomorrow, by displaying flags or bunting to commemorate the day.—City Board of Trustees.

Washington's Birthday exercises suggested by the Register and arranged for tomorrow afternoon under the auspices of the Santa Ana Chamber of Commerce, will not be held if it is raining at 12 o'clock tomorrow.

The program for the afternoon celebration at Birch Park has been completed and weather conditions alone will be responsible if it is not carried out.

The program will start at 3 o'clock and will be over 45 minutes later if everything moves off as scheduled.

Superintendent Cranston of the city schools is co-operating with the chamber in organizing the celebration. School will be dismissed at 2:30 and school children of the city will assemble at the park at 3 o'clock. There will be no down-town parade. The children will march by rooms from the different schools to the park, taking the most direct route. Each room will carry the room flag. A line will be formed at the park and a short parade around the city public grounds will follow.

The exercises will take place on the band stand. Four five-minute addresses will be made. George B. Shattuck, president of the Chamber of Commerce, will preside. Walter Eden, representing the chamber, will make a brief talk. Mayor Visel will represent the city. R. M. Stewart the G. A. R. and Guy Wicks the high school. "Washington's Foreign Policy" will be the subject of the latter's speech.

The Boy Scouts will be out in uniform and a squad of Company L will act as guard. It was the intention to have Company L give an exhibition drill, but this had to be abandoned because the boys are not fully uniformed. They have not received new uniforms and those they used on the border are worn out.

The high school will be in charge of the musical program. Harry Garstang will lead the audience in songs before and after the addresses.

J. W. Nelson of 410 South Broadway, has volunteered the use of a 7x12 flag for draping the band stand.

PERSHING NAMED TO SUCCEED FUNSTON AS SOUTHERN DEPT. CHIEF

EL PASO, Feb. 21.—Major General Pershing was notified today by Secretary of War Baker of his appointment as commander of the southern department, succeeding General Funston.

General Pershing will leave headquarters at San Antonio some time this week. General George Bell, Jr., succeeds him as commander of the El Paso military district.

BIG PRICES FOR CAL. ORANGES AFTER MAR. 1 SEEN AT REDLANDS

REDLANDS, Feb. 21.—Arthur Gregory, general manager of the Mutual Orange Distributors, which ships for about fifty packing associations in Southern California, has returned from Chicago, where he attended the annual meeting of the General Sales Agency, of which he is a director.

Mrs. Gregory accompanied him and they first went to New Orleans, where they attended the Western Fruit Jobbers' convention.

"The California oranges should bring big prices after the first of March," said Mr. Gregory. "At the present time the weather is so cold that the fruit cannot be sold on the stands, only in grocery stores; and naturally this cuts down the consumption. Prices are very good now, but they will undoubtedly be higher this spring than they have ever been."

Vegetables are bringing the highest prices in the east ever known, and in spite of the high cost of living the people there seem to be prosperous," he continued. "The General Sales Agency reported big prices for all vegetables handled during the year, the company having handled about 30,000 cars of fruits and vegetables. It is expected that this total will be doubled the coming year."

"There is no doubt but that Florida fruit was hard hit by the frost and fruit men of the East are putting the loss there at 50 per cent of the crop on the trees. This will be another great factor in bringing the highest prices for California fruit."

Mr. Gregory says that most of the dealers in the eastern cities prefer the California fruit to the Florida at any time because it is of better flavor.

P. O. SITE PROTESTED IN REDLANDS WIRES

REDLANDS, Feb. 21.—Two telegrams protesting against the selection of a site on West State street for the Federal building this city is to have, have been sent to Congressman William Kettner. They were signed by H. H. Ford, president of the Chamber of Commerce, and Philip Harris, the president of the Merchants' and Manufacturers' Association.

A sum of \$30,000 has been appropriated for a Federal site in this city and a strong rumor is current that a site on West State street is to be selected by the postal authorities. The directors of the two civic organizations protest against this, saying that such a site will prove to be highly undesirable to a large majority of the citizens of the city.

RESCUES LOST MONEY FROM GARBAGE BARREL

LOS ANGELES HARBOR, Feb. 21.—A frantic groceryman recovered a wallet containing several hundred dollars when he overhauled a garbage wagon on the way to the city dump. One evening when he closed his store he found he had more money than he wanted to risk carrying home or leaving in his store. The time being after the garbage barrel. The next morning he forgot to take out the money until the garbage collector had called on his wagon. Chris Sandvik, the driver, was rewarded with a \$10 bill upon his promise not to reveal the name of the careless merchant.

GIANT U-LOSS IN MEDITERRANEAN IS CLAIMED BY GERMANY

6 Ally Vessels Sunk By Divers In Southern Seas, Bureau Statement

BERLIN, via Sayville wireless, Feb. 21.—Sinking in the Mediterranean of a "crowded Italian transport steamer," two armed steamers of 3000 and 4500 tons; the Italian steamer Oceana, 4200 tons; the French steamer Moventaux, 3200 tons, and the French sailing ship Aphrodite, 600 tons, was announced in an official press bureau statement today.

The statement also added: "Papers observe that real submarine successes are undoubtedly much larger since a majority of the submarines have not yet reported, besides the paralysis of neutral navigation must be taken into consideration."

According to the press bureau, the two armed steamers were loaded "with an important cargo for Saloniki," and the French sailing ship with iron for Italy.

Lloyds does not list an Italian steamship named Oceana, but there is a steamship Oceania of 4217 tons, owned by L. Pittalugia, of Genoa, which may be the one specified in the Berlin statement.

Neither of the other ships is listed nor is there any name in Lloyds' register which might be mistaken for them.

GLENDALE AUTO DRIVER SLAIN

GLENDALE, Feb. 21.—The body of Albert Demerke, a local jitney man, was today found near La Crescenta, shot through the head from behind, and the pockets of his clothes turned inside out. No clue was found. Demerke was driving to Sunland when last seen in his jitney.

TO GO AFTER TUNA IN MEXICO WATERS WITH FLOATING CANNERY

LOS ANGELES HARBOR, Feb. 21.—The Pacific Fish Products Company with an authorized capitalization of \$75,000, has been organized to operate the floating cannery, John E. Heston, Jr., in Mexican waters. The cannery is now anchored in the outer harbor and will be sent south at the opening of the tuna season.

Tuna began running in Magdalena Bay several months before they reach California waters and it is expected that by sending the floating cannery south a much longer season will result. The incorporators are John E. Heston of Long Beach, G. C. Van Camp of San Pedro, and Stanley P. Allen.

The cannery was brought down from Puget Sound last year and was fitted up here. It was operated in San Pedro waters a part of last season.

MAN FROM REDLANDS TO JOIN ALLY FLIERS

REDLANDS, Feb. 21.—Arthur Cocking, former star half-back of the University of Redlands, and also a member of the baseball team for two years, sailed from Canada with Canadian troops for England. He has been placed in the aviation corps, and after his season of training is over, will be sent "somewhere in France."

Mr. Cocking left Redlands several months ago and since that time has been training with the troops of his home city, Vancouver.

He passed the engineer corps tests with such high degree that he was one of the few men selected to enter the aviation corps and will probably be in England three or four months before being sent to the continent.

There are half a dozen athletes of the school here now with the engineering corps of Canadian troops in France.

TEUTONS SURPRISED AT VIENNA CONFERENCE

AMSTERDAM, Feb. 21.—German officialdom is intensely interested—and puzzled—by the conferences at Vienna between American Ambassador Penfield and the Austrian foreign minister, according to Berlin advices today.

Astonishment is expressed that there should be any doubt in the United States that Austria-Hungary does not fully approve and support Germany's declaration of relentless submarine warfare.

On the contrary, it is semi-officially declared that Emperor Carl's determination is to accord the most emphatic support to his ally. Participation of Austrian officials in the conferences which decided upon the submarine warfare was also cited as evidence of Austria's full sympathy with the use of a weapon demanded by the allies' starvation blockade of the Central powers.

THOUSANDS VIEW ORANGE SHOW'S BRILLIANCIES

SAN BERNARDINO, Feb. 21.—Thousands of people are at the National Orange Show today after the citrus fruit growers' gorgeous show to the country with their brilliant opening of the show last night.

With 10,000 men and women as spectators it was the most auspicious opening in the exposition's several years' history.

Prominent men and women were there from all over California, celebrating the harvest of the \$50,000,000 orange crop.

Queen Hazelle, most charming daughter of Northern California citrus fruit orchards, was crowned and as the throngs saluted her with the great shout, "All hail the Queen," 10,000 lights burst forth among the millions of oranges. The Queen was escorted by her court.

President Joseph Ingersoll spoke and introduced representatives of various sections of California.

Bands are playing in the exposition today and a score of entertainers, embodying the cabaret idea, are adding to the festive atmosphere of the gorgeous scene.

This is San Gabriel Valley Day and tomorrow will be Riverside Day.

Saturday will be the big day of the exposition.

The show continues until Wednesday of next week.

Judges today began the awarding of the prizes for the most perfect California citrus fruits, several hundred thousand of which are entered in competition.

ILLINOIS SOLON HITS U. S. FARM EXPERTS

WASHINGTON, Feb. 21.—Senator Sherman of Illinois, born and raised on a farm, does not think much of the government agricultural experts. He said so during discussion of the agricultural appropriation bill.

"These alleged scientific farmers know more about war politics than they do about farming," said Sherman. "If they attempted to put into practice their scientific farming stunts they would starve to death in twelve months. I'll bet 90 per cent of them don't know hard cider from creek water. They would know a Jersey cow only if she introduced herself."

2000 CADETS NOW IN CALIF. HIGH SCHOOLS

SACRAMENTO, Feb. 21.—With the addition of the Sacramento company of cavalry and a new company at the Gridley Union high school, the total strength of the high school cadets in California reaches 2000, Major J. P. Ryan, in charge of the cadets, announced today.

There are thirty-six companies in all. Sacramento high school is the first to have a cadet cavalry troop, and Major Ryan says the boys are surprisingly good equestrians.

DRUMMER SLAIN

BERKELEY, Feb. 21.—J. S. Collom, Berkeley traveling man, is dead here today from the bullet wound inflicted by a man whom he had just befriended. A reward of \$500 was offered today for the apprehension of the murderer.

British Sea Leader Admits Diver Menace Is Increasing

400,000 MORE ENGLISH SAILORS URGED AS TEUTON CHIEF CLAIMS U-BOATS ARE CRUSHING BRITONS

LONDON, Feb. 21.—Sir Edward Carson, first Lord of the Admiralty, today urged an increase in British sailors by 400,000. He said: "The submarine menace is grave, serious and growing. It has not yet been solved, but I am confident that measures are now being devised that will gradually mitigate its seriousness."

Sir Edward said that the inventions board is a big factor in the British anti-submarine campaign.

DIVERS CRUSHING FOE, TEUTON'S CLAIM

BERLIN, via Sayville wireless, Feb. 21.—"We are sure of success and shall allow nothing and nobody to wrest this success from us," declared Secretary of the Treasury Hefferich to the German agricultural council, discussing the submarine war.

"Already the navigation which links the British Isles with the rest of the world has been depressed to the danger point," he continued, according to the official press agency report.

"The British world empire, which already has been shaken to its foundations, is now the object of powerful, merciless strokes from our submarines, which have been increased in numbers and efficiency," said the secretary.

"This will continue until the day dawns for which every German heart so ardently awaits."

"Already England's reserve stocks of foodstuffs and munition materials have become exhausted to such a point that she more than ever relies upon assurances of plentiful importations."

BAN UPON BOUNTIES IN SAN LUIS OBISPO COUNTY EASES TAXES

SAN LUIS OBISPO, Feb. 21.—A saving to taxpayers of over \$15,000 is expected to result from the action of the Board of Supervisors of this county in cutting off the squirrel and coyote bounties which have been paid for the last five years. Last year the county paid about \$2500 for coyote scalps and about \$11,500 for squirrel tails. Retrenchment in other departments have also been ordered.

COLOSSAL DRIVE ON VERDUN BY GERMANY BEGAN JUST YEAR AGO

VERDUN, Feb. 21.—A year ago today the German assault on Verdun started. Today the French occupy almost precisely the same positions as before the assault, despite the death of 700,000 Germans and a fearful expenditure of munitions.

INDUSTRY EDUCATION EXPERTS IN CONCLAVE

INDIANAPOLIS, Feb. 21.—Four thousand delegates came here today for the tenth annual meeting of the National Society for the Promotion of Industrial Education. The delegates represented every part of the United States and Southern Canada.

Indiana surveys for vocational education by the State Board of Public Instruction will be the main topic of discussion. Report will be made on surveys conducted in several Indiana cities and the advocates of the new system will show how schools in this state are meeting requirements to prepare for vocational education.

Secretary of Commerce Redfield, president of the organization, will talk on the Smith-Hughes bill, which has passed the Senate and is now before the House. The bill calls for an appropriation for the promotion of vocational education.

WRITES FOR FUNSTON AT S. F. TO BE HUGE; L. A. HONORS GENERAL

SAN FRANCISCO, Feb. 21.—With all the military honors it is possible for his country to give, Major General Frederick Funston, who dropped dead at San Antonio Monday night, will be buried at the Presidio National cemetery in this city Saturday morning.

For eighteen hours before interment the body will lie in state in the big rotunda of the new city hall where the people of San Francisco may view the last remains of the man whose work meant so much for salvation of the city during the great fire of 1906.

2000 CADETS NOW IN CALIF. HIGH SCHOOLS

SACRAMENTO, Feb. 21.—Members of the local United Spanish War Veterans camp are today arranging to hold memorial services in honor of the late Major General Frederick Funston at the Southern Pacific station when the train carrying his remains arrives tomorrow night on its way to San Francisco. Members of other patriotic orders are also expected to join in the tribute.

All flags on municipal and all other buildings in Los Angeles are at half mast in respect to Funston.

HIGH SCHOOL GIRLS' CADET CORPS URGE

SACRAMENTO, Feb. 21.—Adjutant General Borree today urged the organization of a cadet corps for high school girls, seeking to give them training in first aid.

Measure Now Carries Nearly Half Billion Dollars For Defense

EXECUTIVE TO APPEAR BEFORE SOLONS SOON

Will Ask Law-Makers to Give Him Power to Protect American Rights

WASHINGTON, Feb. 21.—"The United States may soon need all the friends we can secure in Central America," President Wilson wrote Senator Stone recently, urging immediate ratification of the Colombian treaty. The President expressed surprise that there was "any objection to its consideration, in view of the unusual circumstances of the moment."

WILSON IS CERTAIN TO ADDRESS SOLONS SOON

BY ROBERT J. BENDER
(United Press Staff Correspondent)
WASHINGTON, Feb. 21.—President Wilson is practically determined to address the present session of Congress on the German-American treaty, probably late next week.

Unless the situation takes a vast more critical turn, the President's appearance before a joint session will be merely to ask for broad powers "to protect American rights" after Congress adjourns.

Owing to the delicate situation which might arise through a misunderstanding of an appearance before Congress, the President will see to it that the exact facts and purposes surrounding his appearance at the capitol are communicated to all belligerents. It is pointed out that with communication now so subject to "coloring" and otherwise impaired, every precaution must be taken to prevent any misunderstanding abroad, especially in Germany.

CLAD IN NIGHTIE GRACE STREET RESIDENT SHOOTS

N. Wineteer Fires Gun to Scare Away Intruder at His Home

Screams of Mrs. N. Wineteer and the boom of a gun in the hands of her husband created some little excitement in the neighborhood of Grace street last night about 9 o'clock. They also caused City Cops Joe Ryan, John Ryan and Sid Smithwick to make a hurried trip to the Wineteer home. The officers have not yet been equipped with flying machines and the cause of the disturbance had made his getaway when the officers arrived.

The screams of Mrs. Wineteer were the result of a man at the window of the bath room. She watched the man walk by the bath room window to a window of the dining room, where her daughter, Pearl, was engaged in practicing drawing.

She called to her husband, who had retired, to shoot the intruder. Clad in his nightie Wineteer bounced out of bed, grabbed his shot gun and went to the west door of the house and opened hostilities on the night air by firing two shots. He did not see the man and fired just to scare him.

Mrs. Wineteer believes the man was a Mexican.

Monday night some one was heard walking around the residence of C. C. Schultz, in the same neighborhood, and it is thought that possibly the man who appeared at the Wineteer home was the one at the Schultz residence the night before.

INACTIVITY CAUSES CONSTIPATION

Lack of exercise in the winter is a frequent cause of constipation. You feel heavy, dull and listless, your complexion is sallow and pimply, and energy at low ebb. Clean up this condition at once with Dr. King's New Life Pills, a mild laxative that relieves the congested intestines without griping. A dose before retiring will assure you a full and easy movement in the morning. 25c at your Druggist's.

HUNGARIANS TO PLAY AT GRAND TONIGHT

Samuel Schildkret in person with his famous Hungarian Orchestra will appear at the Grand Opera House tonight at 8 o'clock. Those who heard this company during the Chautauqua last summer have been looking forward to this event as one of the best numbers of the course. For ten years Mr. Schildkret has been appearing on Lyceum courses and everywhere has been greeted with an enthusiasm seldom tendered a musical organization. It is said that as a director Samuel Schildkret can get as much music out of six men as many directors get from ten.

GIRLS! DRAW A MOIST CLOTH THROUGH HAIR. DOUBLE ITS BEAUTY

Try This! Hair Gets Thick, Glossy, Wavy and Beautiful At Once

Immediate?—Yes! Certain?—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it surely get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.—Advertisement.

14 PLAYERS NOW BANDED TO GET CUBS' GOAT IN FRAGAS HERE

Fullerton Reconnaissance By S. A. Impresarios Brings Three More Athletes

Carrying out a well planned reconnaissance into Fullerton yesterday afternoon, J. C. Metzgar, Victor Walker and Alex Brownridge succeeded in securing three more recruits for their team of athletes which will be used in a valiant attempt to stem the onslaughts of the Cubs when they arrive here March 2.

The trio of pastimers annexed were Tom Garner and Harry Hughes, both of the Beaumont Club in the Texas League, and Glenn Callan, of the fast Fullerton semi-pro club.

Orange county is about to experience a veritable deluge of baseball. What with the Cubs-Santa Ana Chamber of Commerce All-Stars game here March 2 and the Vernon-Fullerton game at Fullerton March 4, fans will have ample opportunity of witnessing a brace of conflicts of the ne plus ultra order.

The fact that Vernon and Fullerton would clash March 5 was announced yesterday by Tom Darmody, president of the Tigers.

Though Metzgar, Brownridge and Brownridge have signed up a formidable array of talent for their All-Star team, they are by no means resting on their oars. They are keeping their spyglasses trained on the horizon and every time anyone who looks like a first-class player heaves into sight the Santa Ana impresarios will get busy with their grab hooks.

Here is how the Santa Ana All-Star list looks at the present writing:

OUTFIELDERS

Gavvy Cravath, Philadelphia Nationals.

Tom Garner, Beaumont, Texas League.

"Shorty" Smith, Coach, Santa Ana High School.

James Thompson, Santa Ana Ball Club.

INFIELDERS

"Doc" Crandall, Los Angeles Coast League Club.

Fred McMullen, Chicago Americans.

Glenn Callan, Fullerton Ball Club.

Anson Mott, Garden Grove Ball Club.

Clair Head, Garden Grove Ball Club.

Al Wallace, Orange.

"Brownie" West, Santa Ana Ball Club.

PITCHERS

Harry Hughes, Beaumont, Texas League.

"Rip" Hagerman, Portland Coast League Club.

CATCHER

Carlton Stevens, Tacoma, Northwest League.

"Doc" Crandall, who is listed as an infielder, may be used on the mound.

JIMMY ARCHER ABSENT AS CUBS LEAVE

CHICAGO, Feb. 21.—Minus Jimmy Archer, the Cub special pulled out for Pasadena, Cal., last night bearing, with about thirty ball players and some three score "hangers on," mere stockholders, sporting writers and "bugs."

Archer was at the station for an eleven-hour conference with Veeghman and Manager Mitchell, but was unable to agree to their terms. A flattering offer, as a battery mate for Grover Cleveland Alexander on a "circus team" has been tendered him, Archer hinted.

Five other Cub players are expected to join the special at Kansas City and Newton, Kan., while several will report at Pasadena.

Get your HEMSTITCHING done at the Singer Shop, 321 W. Fourth St.

Closing out wallpaper at Chandler's, 510-516 North Main street.

STOCKHOLDERS' MEETING

A special meeting of the stockholders of the Santa Ana Orange Growers' Association will be held at Campbell's Opera House, Thursday, March 1st, at 9:30 a. m., to listen to the report of the Directors on the pre-arranged oranges and the building of a new packing house, in accordance with a resolution passed at the last stockholders' meeting.

G. N. ATWOOD, Secretary and Manager.

NOTICE TO CREDITORS

SALT LAKE MEN ARE READY TO GO FORWARD WITH THE COUNTY

Spirit of Co-operation Marks Visit of Railroad Officials With M. and M.

Declaring that they are ready to go forward hand in hand with the people of Orange County for the advancement of the county, a party of Salt Lake railroad officials today was given the hand of fellowship by the Merchants of Santa Ana.

Over 100 Santa Anans and a number of men from Orange gathered at the weekly luncheon of the Merchants and Manufacturers, at which the officials were guests, and from them heard something of the purposes and desires of the Salt Lake railroad in making its extension to Santa Ana.

J. S. Smart presided at the meeting, which proved to be one of jollity as well as one of welcome and of plain talk. He introduced in turn the Salt Lake railroad men, as follows:

H. C. Nutt, general manager; F. A. Wann, general traffic manager; C. C. Barry, auditor; A. S. Halstead, chief counsel; Arthur Maguire, chief engineer; F. A. Waters, right-of-way agent; Douglas White, general industrial agent; Byron Jones, district freight agent; C. A. Redmond, district passenger agent; J. J. Tavis, who was highly complimented by Chairman Smart, city freight and passenger agent of Santa Ana.

"We feel that while we are coming here to benefit our business," said General Manager Nutt, "we can also be of benefit to you. We want to aid in the development of the county. When the spring weather clears, we will go ahead with our construction, and we will be with you soon. The old feeling against railroads is being done away with, and today we all recognize that a railroad to be successful must work hand in hand with its patrons. That is our attitude toward you. We desire your co-operation, and we desire to co-operate with you."

Attorney Halstead also emphasized the desire for co-operation. "We recognize that a railroad is not going to get any benefit from going into a community that is already well served, unless it can give better service," said he.

Traffic Manager Wann declared that the traffic doors of the company will always be open for meeting patrons of the railroad for the discussion of any problem.

Douglas White, the industrial agent, delighted the audience with a number of rattling good stories, well told, and ended with the declaration that the railroads and the city must be partners in progress and prosperity.

M. Phillips was appointed chairman for the next weekly luncheon of the M. and M.

SENATOR EVANS IS EXPECTING NUMBER FIGHTS ON BILLS

"There Will Be Some Interesting Contests This Session," Says He

State Senator S. C. Evans of Riverside, representing the district that includes Riverside, Orange and Imperial counties, was in Santa Ana today to address the Legislative committees of local women's clubs at the city hall.

At noon he was a guest at the weekly luncheon of the Merchants & Manufacturers' Association.

"The coming session is going to be a lot of hard-fought battles. There are a number of measures that will call forth bitter controversies. Among them will be the liquor bills, the anti-injunction bill, and a number of appropriation bills.

"There are bills in for appropriations for all kinds of things, from monuments to parks and public institutions. Far more is asked than can be granted. I am hopeful of getting an appropriation through for the proposed state farm school at Riverside.

"The thirty days interim is not long enough for a man to give intelligent study to the 2700 bills that have been introduced."

Senator Evans has taken a strong hold on the work at Sacramento, and his ability and resourcefulness have already given him a strong position at the Legislature.

We handle everything in produce. What have you? Good quality apples, onions, potatoes. C. C. Produce Co., 311 N. Broadway. Phone 615-J.

COUNTY EXHIBIT AT NATIONAL ORANGE SHOW GOOD ONE

Big Relief Map, Showing the Coast, Is One of Big Features In Display

The National Orange Show opened at San Bernardino last night in a blaze of glory, and despite the inclement weather the attendance was large. Several Santa Anans were present and participated in the features of the opening night.

Next Saturday is to be Orange County Day and a big automobile excursion is being arranged. The excursion will depart from the city hall, Santa Ana, at 8 a. m. and will be joined at Orange, Fullerton, Anaheim and Brea by residents of those sections.

It is hoped that the attendance of Orange county people on that day will exceed the records of previous years.

With the exception of a short stretch at the end of Brea canyon, the road is in excellent condition. By making a slight detour near the end of the canyon the worst of the bad stretch can be avoided.

R. L. Bisby visited the show yesterday, making observations, and declares it better than the six annual events which have preceded it.

Discussing his trip yesterday, Bisby this morning said:

"Like the prophet of old I thought I would take time by the forelock and take a look how Orange county was going to be represented at the Big Seventh National Orange Show. So yesterday morning, with an automobile full of Orange county beauties and speculating with us we left Santa Ana for the land of the orange. We found the roads good all the way through Brea canyon, with the exception of about two miles on the upper end which is somewhat slushy and soft going. We arrived in San Bernardino in time for luncheon, after which we visited the Orange Show."

"The location of the show this year has been changed just a little and is very easy of access. A bright new water-proof tent protects the exhibits and the inmates from the inclemency of the weather. It has been said, and truthfully, that the Orange Show is the greatest rain maker that Orange county has ever known. In my experience there has never been an Orange Show that did not do Orange county a great deal of good, not only in the matter of boosting the orange but in the matter of producing crops."

Finishing Touches
 "When we entered the tent we found all hustle and bustle. The finishing touches were being put here and there. Everybody was getting ready for the big opening which took place last night. The Queen and her attendants were trying out the royal robe and testing out the throne-chair. Lindsey was putting her finishing touches to the white swans. The Pacific Electric Railway was trying to get its miniature train to its station on time and the other exhibitors were doing the many things that are necessary to make a beautiful and complete picture to be presented to the spectators. And last, but not least, A. S. Bradford, the chairman of the Orange County Exhibit, who has gained wisdom by experience, was slowly but surely putting into place the last few things that were necessary to complete the Orange county exhibit. To digress for just a minute, I would like to say that the citizens of Orange county are deeply indebted to this man Bradford for his indefatigable work and superior judgment in showing Orange county up to its best advantages. Running a strong second and working like a Trojan, was J. A. Armistage, the beau brummel of Sunset Beach, who was neatly but attractively attired in overalls and at the slightest comment from the big chief chimed up his overalls and did other stunts."

Seen From Aeroplane
 Now as to the Orange county exhibit. On a table 12 feet long is a relief map showing the beaches of Orange county. This map was built by Wayne Abbott, the man who makes the fireworks at Seal Beach. The completeness of this relief map must be seen to be appreciated. It extends from Alamitos Bay to Balboa and is a complete reproduction of Seal Beach pier with its myriad of lights and showing all its developments, also front together with the bathhouse and many of the prominent places of the city. Next we come to Anaheim Landing, showing the bridge crossing the entire beach as well as the inner bay. Next we step down to Sunset Beach, with its pier and development, and in the distance, as we go down the coast highway we see the tabernacle at Huntington Beach together with the Sugar Factory and the Linoleum Factory in the distance together with many of the residences of this beautiful city. Next we come to Newport Beach and Newport pier, Balboa and beautiful Balboa Bay, Collins Island, inner harbor, proposed jetty, in fact every detail of a birdseye view of the coast part of Orange county that could be seen by an aviator who is making his flight over same, and to make it realistic, over and above this, suspended in mid-air is a complete model of one of Glenn Martin's biplanes.

A Real Flier
 It is not stationary, by any means, for it flies over, around and above this exhibit carrying out the effect of the relief map. The credit for the mechanical end of this biplane should be given to Percy Bradford, who has worked into the wee sma' hours of the night to make it a success.

"Burt St. John, the man who has made Seal Beach famous, is on the ground advising, helping and working for the success of the Orange county exhibit."

"The morning papers have given some ideas of the beauties of the Orange Show, but they have not given Orange county the credit she deserves for the amount of work that our citizens have put in it without pay."

Gall Stones, Cancer and Ulcers of the Stomach and Intestines, Auto-Intoxication, Yellow Jaundice, Appendicitis and other fatal ailments result from Stomach Trouble. Thousands of Stomach Sufferers owe their complete recovery to Mayr's Wonderful Remedy. Unlike any other for Stomach Ailments. For sale by druggists everywhere.

COUNTY BANKERS GUESTS OF LA HABRA BANK LAST NIGHT

Bank Advertising Expert of Los Angeles Tells How to Boost Business

That the German American Trust and Savings Bank of Los Angeles spends \$25,000 annually in advertising its business, and with big results, was the gist of an address to Orange county bankers at their meeting held at La Habra bank last night. The address was made by Advertising Manager Morehouse of the Los Angeles financial institution. Assistant Manager Herrick also addressed the bankers along advertising lines.

Morehouse outlined the various plans of advertising used by him, newspaper and window displays taking precedence. He considers it necessary for the banks to keep their name before the public all the time, and this coupled with efficient and courteous service will bring success.

The meeting was held in the office of the La Habra National Bank and was largely attended by bankers from all sections of the county.

A banquet at the Davis restaurant followed adjournment.

A. O. Simmons, who was recently elected cashier of the Orange County Trust and Savings Bank, was introduced to the assembled financiers by President C. F. Krause in a brief address.

The next meeting will be held in Santa Ana in April, it being the annual meeting.

PAINFUL COUGHS RELIEVED
 Dr. King's New Discovery is a soothing, healing remedy for coughs and colds that has stood the test of nearly fifty years. For that cough that strains the throat and saps the vitality try Dr. King's New Discovery. The soothing pine balsam and mild laxative ingredients soon drive the cold from the system. Have a bottle on hand for winter colds, croup, grippe and bronchial affections. At your Druggist's, 50c.

THIEF BREAKS INTO CELLAR AT HALLIDAY HOME ON EAST FIRST

A phone call to the city police department about 9 o'clock last night was that some one was breaking in to the D. Halliday house on East First street, resulted in an investigation by officers, who found that some one had entered the cellar by breaking a window. Whether the thief got anything or not, the officers could not determine.

NATIVE CALIFORNIAN, AGED 73, IS DEAD

YORBA, Feb. 21.—Mrs. Mariana Peralta passed away Saturday at the home of her son, V. G. Yorba, in Peralta. Her death followed a protracted illness in which her advanced age was a factor that decided the issue against her. She was 73. With her passing goes one of the oldest native born residents of Orange county. Descended from one of the early Spanish families, she was born March 2, 1844, on a rancho that is now Huntington Beach. She had lived in this county all her life, during recent years making her home here. Mrs. Peralta leaves four children and twenty grandchildren. The children are Ralph H. Peralta and V. G. Yorba of Peralta; Mrs. Joe Ames of Olive and Mrs. Phillip Farrias of Santa Monica.

AMUSEMENTS

At the West End
 "Sixteen men on a dead man's chest! Yo! Ho! Yo! and a bottle of rum." When the pirates were merrily roaring their familiar song they little suspected that the dead man on whose chest they were sitting was none other than their own chieftain. But then, they had not heard of Pauline Frederick there, for they were ignorant souls and did not go to motion picture shows.

But when these same pirates captured a beautiful maiden whom they dragged off to be the favorite of their chief, they little knew what disaster they were courting. For the lovely Miss Frederick killed their leader when he attempted to prove himself her lord and master.

Of course this all happened in a motion picture—"The Slave Market," in which Pauline Frederick is starred by the Famous Players Film Company. It is the Paramount Feature at the West End Theater tomorrow and Friday.

Clune's Theater
 Having divorced his first wife, and married a far more beautiful and talented woman, Ralph Hadley finds that he is not willing to abide by his own decision. He returns his affections to the woman he had divorced and brings untold suffering to the wife who has been faithful and long enduring. Finally when matters have reached a tragic point, the fickle husband and the woman he had divorced suddenly realize their "duty"—and matters are compromised. This is a digest of the plot to be unfolded in gripping photo-drama under the title of "The Piper's Price" at Clune's Theater tonight, when Dorothy Phillips and Maud George will appear as the two women in the cast and William Stowell will impersonate the faithless husband. It's a Bluebird, and if it's a Bluebird it's got to be good.

At the Princess
 "A Lass of the Lumberlands" continues to draw large and enthusiastic audiences to the Princess. Helen Holmes, dare-devil girl, appears to carry on her thrilling feats with greater recklessness than ever.

A theater manager in another city in the east reports that his 450-seat house was forced to accommodate 1529 people on a recent day, when the fifth chapter of the serial was shown, and this in view of the fact that a blizzard raged outdoors.

TOMORROW NIGHT ARE TO ORGANIZE RED CROSS HERE

Tomorrow night at 7:30 o'clock a meeting will be held at the Santa Ana city hall for the purpose of organizing a Santa Ana branch of the American Red Cross Society.

The meeting will be addressed by a representative of the society from Los Angeles, and by local men interested in the work of the organization. Last night a Red Cross Society was organized at Newport Beach. Officers elected there were: L. H. Wallace, president; Dr. B. F. Raiche, vice president; Mrs. Charles Wallace, secretary-treasurer.

FOR \$7000 RESIDENCE
 FULLERTON, Feb. 21.—Col. J. E. Jones has let a contract to Frank Benchley for the erection of a \$7000 two-story residence on his orange grove property a mile south of town. The building will be one of the neatest in this part of the county.

A GOOD WINTER HABIT

Many people dread winter because the sudden climatic changes bring colds, grippe, rheumatism, tonsillitis or bronchitis. But thousands of well-informed men and women today avoid much sickness for themselves and their children by taking a few bottles of Scott's Emulsion to make richer blood, fortify the membranes of the throat and chest and create body-warmth to resist sickness. Soldiers at war receive cod liver oil; it will also strengthen you. Scott & Bowne, Bloomfield, N. J.

BOOZE AT SAN FRANCISCO

The one thing that stands out prominently in the movement against vice at San Francisco, is that the liquor traffic is at the bottom of it all. Banish the wine from the so-called French restaurants, the stronger intoxicants from the lower dives, and those institutions would be forced out of business.

For example, a place known as the Casino, caught violating the law, stood to lose its license until the San Francisco police commission gave it another chance. President Theodore Roche of the San Francisco Board of Police Commissioners, in speaking of the Casino incident, is quoted in the San Francisco papers as saying:

"But," said Roche, "if the Casino shall again be convicted of an offense against the liquor-selling laws, the license of the place will be revoked."

"It is not fair to the board to say that it is not honestly striving to effectuate the moral reforms that have been promised. We have set out upon a policy of progressive reform, and we do not intend to turn back; but we want to avoid revolutionary action, because we feel that that would do more harm than good. Many of the evils which we have recognized, and which we intend to correct, have grown to be an integral part of the life of the city. We deem it wiser and safer gradually to eliminate these evils than to uproot them. It would be possible to overthrow all these things at one stroke, but if that were done the people themselves would be offended."

"In the case of the Casino, the order of the board was that the place of business should be wholly closed at 2 a. m. The enforcement of that order as the board views it, will pretty nearly have the effect of a revocation of the liquor license, because much of the business of the Casino has been had after 2 a. m. Under the order of the board the Casino cannot now keep its restaurant open after 2 a. m., nor conduct any other business under its liquor license."

PUBLIC PAPER PRICE

The proposal of the paper manufacturers that the Federal Trade Commission fix their prices, even though enforced, as it was, by the big stick, is one of the most remarkable concessions to the spirit of public regulation ever made. For paper is not, in the strict sense, a public utility. It is a universal necessity, to be sure, but, like fuel, food or clothing, it is consumed individually and can be bought and sold competitively. It is a commodity, not a service. It is not bought or consumed by the public in its collective or organized capacity, and its production is not a natural monopoly and is not desirably an artificial monopoly. All the conditions, therefore, which normally justify the governmental fixing of prices are absent from the paper business. It is one of the businesses to which the doctrine of the "New Freedom" could really be applied. It would regulate itself, unless there were artificial interference with free competition. If there is such interference, it is the business of the government to prevent and punish it— which the government was on the point of doing. Now the manufacturers propose, instead, that the government fix a fair price, and they agree to abide by that price. Doubtless the imminent fear of jail stimulated this willingness. But at least it is the acceptance of a course which could not have been directly enforced if resisted, and it is to that extent a voluntary action.

The immediate effect on the paper situation remains to be seen. Possibly it will bring back the price of your twenty-cent magazine to fifteen cents again, and postpone the increase in the price of your daily newspaper. But mainly it is an interesting example of one further step in the abolition of competition from business. These paper manufacturers had combined, to escape competition. Naturally, they proceeded to abuse their new power of combination, and so they were in danger of losing it. But confronted with the alternative of going back to competition or forward to government price-regulation, they chose the latter as the less evil. If "competition is the life of trade," then trade must be very enamored of death—for it is running away from competition as fast as it can.—Fresno Republican.

Get the habit, take an inventory. If that suit or dress needs cleaning call Sutorium, Pacific 279, Home 555.

Influence of Advertising on Prices

Among the several investigations in progress or contemplated, of commodity prices, none is of more interest to the average business man than the one which has just been suggested at Washington to cover the basic facts of production and distribution. The scope of the inquiry has not yet been fully revealed, but thus far it is apparent that the influence of advertising as a distributing force on both the price and quality of goods will have a leading place.

In this connection it is of interest not only to producers and distributors, but to the consuming public, to note that considerable preliminary work has already been done in determining the influence of advertising during an era of high prices.

The Association of National Advertisers has recently been gathering some remarkable facts and figures on this subject. They show how one after another of the big advertisers of the country have been able to reduce the price of their product or else to improve the quality at no increase in price. It is a significant fact that nationally advertised goods are the only products which, as a class, have not tended to rise in price during the past few years.

Countless causes are working today to force prices up. Against all these forces one force only is working to keep prices down—AND ITS NAME IS ADVERTISING.

"Advertising is like a straight line; the shortest distance between two points—the producer and the consumer. It cuts out the grades, curves and the angles. It makes a drop of ink do the work of a salesman. BEAR IN MIND THAT GOODS CAN NEVER BE SOLD UNLESS THERE IS A DEMAND, AND ADVERTISING CREATES THIS DEMAND IN THE SIMPLEST, MOST DIRECT, AND LEAST EXPENSIVE WAY. NO OTHER SALES METHOD CAN EQUAL IT IN MAGNITUDE OF RETURN FOR A MINIMUM OF COST."

"And the big returns from advertising also cuts down the manufacturing cost—that's another saving. Increased volume of production always means a decrease in the unit cost of production through better and more efficient manufacturing methods."

Washington's Character

(FROM THE STOCKTON RECORD)

An article on Washington in the editorial columns of the Christian Science Monitor of Boston confines itself chiefly to Washington's dignity, and compares his demeanor favorably in times of stress and triumph with that of well-known statesmen in England and America, both in prior and subsequent times. But if the Monitor will peer deeper, the Record feels assured that it will find that Washington's dignity was an outgrowth of his peerless character.

A great many Americans who have studied closely the life and acts of Napoleon Bonaparte have become enraptured with his genius that they have truly considered that he (Napoleon) had a quicker, firmer and further-reaching mental grasp of all large topics than any other man who ever lived in the world. His genius was not confined to the battlefield. It shone brightest and most enduringly in civic matters and in administration. It was a genius that was selfish for France and for his own family, and yet could reach out to other lands and peer ahead into the years and centuries to follow. Napoleon was a master of urban affairs, of police affairs, of land tenure, of a hundred and one policies that France adopted, that America imbibed, that England, Germany and Italy half adopted but could not for decades carry them on so successfully as France because they lacked the spirit of application.

But, although Napoleon had the genius to grasp, he did not have the character to deny. He could see at a glance, decide in an instant and act without delay; but he did not have the character to deny himself and those surrounding him. He could see with unerring eye the qualities of those whom he would use, but was blind regarding those whom he wanted to benefit. He could read human nature like an open book, but was singularly deficient in looking beyond the grave to realize that no other had his genius to organize good and safety out of public acclaim. Could he have denied his temporary desires and let his genius alone endure, he would not have put a Napoleon or a favorite on every throne in Europe.

Sense and Nonsense Anent H. C. L.

Guy Martin, of the D. L. Anderson Co., Contributes Some Sense and Some Nonsense to the Rapidly Accumulating Literature on the High Cost of Living

RICE VS. POTATOES

For the first time in the history of merchandising, it is possible to buy a good grade of rice cheaper than a good grade of potatoes.

According to John Carman, assistant city chemist of Los Angeles, rice runs 12 per cent moisture whereas potatoes run 80 per cent moisture. In other words, with the water out, there are 88 pounds of solid nourishment in a hundred pounds of rice, whereas there are only 20 pounds in 100 pounds of potatoes. As everyone knows, rice cooks "up" whereas potatoes cook "down."

Your customers are trying to economize on their grocery bills. Why not feature this important fact in your show windows, advertising, etc.? Let them understand that without getting into a lot of technical chemistry of food, it is a plain fact that one pound of cooked rice contains as much nourishment as nearly 4½ pounds of potatoes and, when served on the table, they bulk in about this proportion, for one takes up water in the cooking and the other gives up water.

THE BOYCOTT

When eggs are a dollar a dozen, And meat is a quarter a bite, And only the price of such fodder as rice

Falls to soar away out of sight, You'll find if you just do without 'em, There will soon be an oversupply, And there's never a doubt, if you'll only hold out.

That the price will come down by and by.

You can cut out the milk and the coffee, The cake and the bread and the pie; The pickles and jam and the ham and the lamb

You can swear that you simply won't buy, And the men who are boosting the prices

Will not have a thing they can sell, And inside of a year there'll be nothing to fear

From the terrible H. C. of L. Of course you will starve in the meantime;

Inside of a fortnight or two
The willow will wave o'er your neat little grave.
And prices won't interest you.
No doubt there is also a boycott
By which you could safeguard your self

By saving a lot on your burial plot—
But—figure that out for yourself!
—Anon.

Licensing a Palmist

The city council of Los Angeles has made a bid for seats with the intellectuals. It has issued a license to a palmist. Now he or she is at liberty to read the lines of the hand and get money for it.

A palmist is not what the term would imply, but more than likely professes to be the seventh son of a seventh son, born with a gall. Instead of discerning in the hand such marks of character or occupation as really might be there, he takes a squint, heaves a sigh, throws a fit and indulges in the same sort of prophecy affected by the crystal gazer, the trance medium and other fakers of the type.

Certain things are indicated by the hands, the most casual observer of these members being able to differentiate the blacksmith and the pianist. Certain things are also indicated by the style of the favored, and the relation of the individual to the habit of chewing gum.

The lines of the palm are due to the manner in which the hand was folded at a very early period in its formation. They have no significance. But a clever student of character may look at them and discern some truth, although he might learn as much by scrutiny of the egg stains on the subject's vest.

The favored palmist ought to give the members of the council a series of readings and not charge a cent.

Living Wages

The head of a motion picture concern testified that his yearly salary was \$52,000, in addition to which he got a share of the profits.

Very interesting and instructive, but hardly an excellent argument against taxation of the movie industry, which was what the witness designed it to be.

Motherhood

Reverence for motherhood is instinctive. It does not follow that it is the duty of all women who have children to have all they can.

Opponents of birth control appear to think that if children swarm in poverty and ignorance and unfit conditions, this is nothing to fret about. Their only purpose in life is to have the children swarm. Can't see it myself.

Reform Rolls On

The Oregon still has the privilege of rolling, of which the poet sang, but the Oregonian can't roll even a cigarette if a pending measure gets by.

And contemplating the situation, the Oregonian hears no sound save his own blankety-dashing.

Junk

The other day a junk dealer found an urn amongst a mass of rubbish he had bought, and in the urn the ashes of a man.

Tossing the late lamented out into the receptacle containing non-combustible refuse is no way to show respect.

Cruelty

A Los Angeles man who made soup of the family kittens has been arrested for cruelty to animals.

Doubtless the indictment is based on the theory that the man's wife and children are animals.

Modesty

The demand of a New York actress for performing before the camera was one million a year.

Probably so modest a lady was glad not to have her name mentioned in the item stating that she did not get the money.

Wasted Energy

Recently I observed an automobile load of young women, well dressed, properly touched up by the beauty doctor as well as by the modiste, and at first glance charming to see.

Every sister in the lot was chewing gum. The jaws of each worked with precision and unity. In the face of each was a look of determination as though every soul was bent on not missing a stroke.

What a waste of energy! The machine was burning gasoline costing at least twenty cents a gallon, and likely soon to cost more than double this figure.

Could the force generated by the clashing of five sets of maxillary bones have been harnessed somehow and imparted to the running gear of the machine, the automobile would have glided to the limit of legal speed at an expense scarcely worth mentioning.

Baseball and Battle

Directors of baseball say that not even war could stop the national game.

However, if war were to become a national game, it would draw bigger crowds.

SURPRISE SHOWER

Miss Josephine Kubitz, Popular Bride-Elect, Honored By Number of Friends

A large number of the friends of Miss Josephine Kubitz, who will soon become the bride of Otto Schroeder, gathered last evening at the home of Miss Mabel Laux and proceeded in a body to the home of the popular bride-elect, giving her a complete surprise. The guests were members of the 1915 Ultra Class of the German Evangelical Church.

Misses Elsie Stutheit and Ida Schroeder presented a large basket filled with beautiful miscellaneous gifts with a neat little speech, showing the love and esteem of friends, and Miss Kubitz made fitting response.

Various entertaining games were indulged in, Miss Elsie Stutheit winning the trophy in the pinning of hearts. Delectable refreshments were served late in the evening.

Enjoying the evening were Misses Frieda Schroeder, Eva Hey, Gertrude Thee, Emma Jacobs, Etta Saerman, Mabel Laux, Clara Gackstetter, Mabel Gackstetter, Alma Schroeder, Rose Schroeder, Minnie Rohrs, Mary Lutz, Edith Keuchel, Edna Kuechel, Nellie Rohrs, Ethel Stutheit, Elsie Stutheit, Julia Sells, Etta Wolfe, Ruth Schroeder, Ida Schroeder, Helen Kubitz and Misses Laux, Russert, H. D. Witt and George Rohrs.

Drama Reading
A public meeting of the Drama Reading Circle will be held in the Unitarian Church, corner Eighth and Bush street, Thursday at 7:30. The reading will be from Gerhart Hauptmann's "The Sunken Bell."

PAST MATRONS MEET

Mrs. W. M. Clayton Hostess At Delightful Afternoon at James' Gold Room

The members of the Past Matrons' Association were delightfully entertained yesterday afternoon by Mrs. W. M. Clayton at James' gold room, the ladies present uniting in declaring the event one of the most charming social gatherings of the season.

After the short business meeting had been held a pleasing program was given and the hostess was presented with a beautiful basket of violets and a large bouquet of white camellias, pink roses and forget-me-nots, in honor of her birthday, which occurred February 19 and as a tribute of the love and esteem of her sisters of the Past Matrons' Association.

The hostess responded in a charming manner, thanking the ladies for the gift and for the kind thought. White sweet peas and asparagus fern were used for decoration, carrying out the club colors of green and white, which also predominated in the dainty two-course collation served at the close of the afternoon.

Mrs. Clayton is a Past Worthy Matron of Waverly Chapter, No. 39, O. E. S., of Waverly, Ohio, having served that chapter as matron for two consecutive years, 1898-1899.

Those present yesterday besides the hostess, Mrs. Clayton, were Miss Pauline Reinhaus and Misses W. H. Thomas, J. R. Medlock, A. D. Palmer, C. S. Dunphy, J. A. Harvey, J. S. Perry, S. J. Evans, H. S. Gordon, T. A. Winkler, W. D. Barker, A. Brock, R. E. Dickinson, F. L. Norton, H. C. Kellogg, A. Hammond, Arthur Pease, George Balderston, O. M. Robbins, H. H. Reeves and D. W. Crawford.

Mrs. J. A. Harvey will entertain the ladies at their next meeting, March 20.

—O—

Pleasant Evening at Whist

Misses Mary Maag and Irene Miller were the genial young hostesses at a delightful whist party last evening at the home of the latter on West Fifth street. A profusion of delicate peach blossoms and ferns made the cosy rooms attractive and at the close of the series of games, the prizes were awarded to Miss Margaret Dougherty and George Barrett and consolation to Miss Mary Maag and Arthur Hoefer.

Refreshments, carrying out a patriotic idea were served by the hostesses on the small tables.

The guest list included Mr. and Mrs. Arthur Hoefer, Mr. and Mrs. George Barrett, Mr. and Mrs. Walter Hisey, Mr. and Mrs. John Maag, Mr. and Mrs. R. Robinson, Mr. and Mrs. F. A. Miller, Misses Grace Johnson, Elizabeth Spohr, Hazel Johnson, Martha Schildmeyer, Katherine Kramer, Margaret Dougherty, Mayme Dougherty, Mary Lipp, Elizabeth Vanderputte, Stella Eimers of Fullerton, Messrs. Victor Eimers of Fullerton, Victor Lipp, John Vanderputte, Raymond Dickinson, George, Joe and William Maag, Shepherd Emmons, Oscar Schildmeyer and Henry Maag.

Altar Society Meeting
Mrs. H. A. Hagaman and Mrs. A. Sieland will entertain the ladies of St. Joseph's Catholic Church and visiting Catholic ladies at the home of the former, 702 East First street, tomorrow afternoon.

Patriotic School Program
The pupils of the Washington school will give a patriotic program Thursday, February 22, at 11 o'clock, in the Spurgeon Memorial Church, corner of Broadway and Church. All parents and friends are invited.

SKILLFUL
painstaking examinations is why we are successful in making good glasses.

COLONIAL EVENING

United Presbyterian Church Scene of Enjoyable Affair, Honor Primary Teacher

One of the delightful church affairs of the week was the colonial entertainment given last evening at the United Presbyterian church, when a large company of members gathered for a social evening and to do honor to one of the members, Mrs. D. G. McGee, who is resigning as a primary teacher, after seventeen years of loyal and faithful service.

The rooms were decorated with the Stars and Stripes, with George Washington's picture draped with flags. Mrs. W. M. Smart was the chairman of the entertainment committee.

Dr. J. G. Kennedy, the pastor, in a touching address paid glowing tribute to Mrs. McGee's work and taking her arm led her to the primary rooms, where she has been a bright figure for so long, presented her with a beautiful white and gold Haviland china set, placed upon a beautifully appointed table. Mrs. McGee could show her appreciation only by her smiles and tears.

A thrilling parade was then formed with the leading couple representing Uncle Sam and Miss Columbia in the persons of Rhodes Finley and Virginia McAuley, and following them came George and Martha Washington, Willard Kellogg and Evelyn Sherrill. The little folks brought down the house with the dignified actions and charming costumes. After marching about the church waving flags, the procession, including all of Mrs. McGee's pupils through the years of her teaching, gathered on the platform and sang "America."

There were also piano solos and brief speeches, together with colonial get-acquainted games and refreshments of sandwiches, doughnuts and coffee were served.

—O—

Colonial Tea and Entertainment

A colonial tea and entertainment in costume will be given by the Spurgeon P. T. A. Thursday, February 22, at 7:30 p. m. The program will be as follows: Music by the Haynes orchestra; reading, "Old Glory" (James Whitcomb Riley) Mrs. John Clarkson; flag drill, girls under direction of Miss Browning; Minuet, by eight girls, and a Hungarian interpretation by Miss Browning.

—O—

Invited to Luncheon

The regular meeting of the Emma Samson Chapter, U. D. C., was held yesterday afternoon with Mrs. Cullom on West Fifth street, with a good attendance.

On account of so much business, the regular program was omitted. Invitations were read from the John Regan Chapter of Los Angeles and one from the Southland Chapter, Alhambra, inviting the Emma Samson Chapter to luncheon on the 7th and 9th of March.

Mrs. L. A. Mayfield read an account of Washington on a visit to Charleston, which was greatly enjoyed.

Mrs. Cullom served her guests with cake and coffee and a social period was enjoyed.

—O—

Are P. T. A.'s Beneficial?

The regular meeting of the Women's Club was held yesterday afternoon at the home of Mrs. Asa Vanderputte on North Main street and was well attended.

Mrs. Julius Eckhardt was an interesting contributor to the program, the subject of her paper being, "Is the Parent-Teacher Association a Benefit to School Work?"

Smart sayings of children were given in response to roll call.

Mrs. Harrison was a welcome guest of the club. A demonstrator gave some excellent demonstrations and a very pleasant time was enjoyed, including sociability and refreshments.

OPEN NOSTRILS! END A COLD OR CATARRH

How To Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffling, hawking, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed-up and miserable. Relief is sure.—Advertisement.

An Aid to Better Bread and Biscuits

CRISCO is so sweet and pure that when you use it as shortening in bread or biscuits the result is most appetizing.

Break open a Crisco-made biscuit and the aroma is exceptionally inviting, for Crisco has neither odor nor taste to impair the natural delicacy of foods.

CRISCO
For Baking, For Shortening, For Cake Making

By using this all vegetable food fat, the rich cream of edible oil, good biscuits and good bread can be made better.

Just as your bread comes hot from the oven you can give it a delicious, appetizing "butter" crust by brushing it lightly all over with salted Crisco in the proportion of 1 teaspoonful salt to 1/2 cupful Crisco.

Let Crisco be your aid in the preparation of tasty foods.

INDOOR GARDEN PARTY

St. Elizabeth's Guild, Church of Messiah, Give Successful, Pleasant Affair

The attractive Parish Hall of the Church of the Messiah was the scene of an indoor garden party last night, which was a particularly enjoyable affair given by the girls of St. Elizabeth's Guild. The financial object in view was the raising of a sufficient fund to finish paying for the piano which the Guild has added to the furnishings of the hall.

The large room was most attractive last night with a gay color scheme of green and red, which blended beautifully with the gray walls and handsome red carpets, and a glowing fire in the large fireplace gave a delightfully home-like air to the place.

A very enjoyable program was given, consisting of a piano solo by Miss Raymond Kraft, song by Miss Beth Phillips, several delightful readings by Miss Winifred Roberts, accompanied by Mrs. A. J. Padgham at the piano, several solos by Mr. Maurice Phillips, a whistling solo by Mrs. Lyman Ellis, two charming ballads by Mrs. James S. Rice, and two solos by Ernest Hartman, whose clear young voice, very sweet and true, was very much enjoyed. In response to a clamor of requests Mr. and Mrs. Rice gave their justly famous rendition of "The Mocking Bird."

A clever playlet, "The Teeth of the Gift Horse" was given a most humorous and enjoyable presentation, under the able direction of Miss Alice Parker, by a cast including Misses Harriet Wollaston, Elsa Reuter, Holly Dale, Helen Phillips, and Charles and Frank Wollaston.

Coffee and cake were served and a candy booth and a mysterious fortune teller were features of the pleasant social hour which closed the evening.

In the afternoon the Women's Guild held their usual Shrove Tuesday tea in the Parish Hall. The rector, Rev. W. L. H. Benton gave an address, and a reading by Mrs. John Clarkson and a solo by Mrs. Mit Phillips were other enjoyable features.

Enjoyable Social and Dance
The Modern Woodmen of America and the Royal Neighbors held one of their enjoyable socials and dances last night, about 150 of the members of these two orders with their invited guests enjoying themselves until midnight with games, cards and dancing.

The Modern Woodmen lodge has a membership of more than 235 and the Royal Neighbors about eighty, and these monthly socials, including as they do something to eat, helps to make things lively and make all who attend happy.

Reduce Local Dues
The Royal Neighbors of America met in the hall yesterday afternoon with an unusually large attendance and held a very interesting meeting.

For the good of the order, a Washington celebration was enjoyed, the decorations being red, white and blue and the favors being little baskets.

The Royal Neighbors found it to be possible to reduce the local dues \$1 per year, owing to the good condition of the general fund. Considerable new paraphernalia has been ordered to make the work more impressive.

Class Postponed
The dancing class of Spurgeon school has been postponed on account of Washington Day celebration.

George Washington Social
The Epworth League of the Richmond Avenue M. E. church, will hold a George Washington social, on Friday evening, at 7:30 o'clock, at the home of Mr. and Mrs. George A. Barrows, 702 South Cypress avenue. A delightful time is promised to all who attend, the members of the league and those interested are urged to be present. Mrs. Roy Bogardus is president of the league and Mrs. Frank Garlock is in charge of the social department.

SILVER ANNIVERSARY

Rev. and Mrs. Otto S. Russell Honored By Helping Hand Society of First Baptist

Honoring the twenty-fifth wedding anniversary of Rev. and Mrs. Otto S. Russell and the natal day of Mrs. Russell, the Helping Hand Society of the First Baptist Church gave a reception at the church last evening.

The ladies' parlor was most beautifully decorated with leathery acacia and pink sweet peas and about one hundred friends shook the hand of the popular pastor and his wife and gave them their best wishes.

A very delightful musical program was given by Mr. and Mrs. Holmes Bishop in their usual charming manner and Mrs. W. D. Gibson rendered "Berceuse" on the violin, with Percy K. Lusk at the piano.

Judge Z. B. West made the happy presentation speech and gave the honored couple a beautiful mahogany tea-wagon, Rev. and Mrs. Russell responding to the appreciated gift.

A committee of six young ladies prettily served ice cream, cake and milk, carrying out the yellow and pink tints.

The lights were then turned off and Mrs. C. E. French carried in a huge and beautifully decorated cake glowing with "sixteen" tapers, and this was presented to Mrs. Russell, while Mr. Lusk sweetly played Lohengrin's wedding march.

Mexican Mothers interested
The Mexican P. T. A. met yesterday afternoon in the kindergarten room of Roosevelt school. Mrs. O. Rodriguez, the president, called the meeting to order, with Mrs. Armendariz as secretary.

Eighteen workers and teachers were present. The president read and explained the constitution of the association and also gave a beautiful lesson on "Our Flag."

A topic of interest was then presented by the president and some of the mothers plainly showed that they are thinking along the lines of advancement, both by asking questions and by expressing their own thoughts on the subject.

Alexandria Rodriguez, the talented daughter of the president, played a pretty piano solo, which was greatly appreciated by the company.

One new name was added, making the total membership twenty. During a brief social period, tea and wafers were served by a committee.

LIBRARY CLOSED TOMORROW
The Public Library will be closed tomorrow—Washington's Birthday.

Dr. Ada B. Keller, Osteopath, graduates of Kirksville, Mo. Office, 804 West Fourth Street. Phone, Pacific 238.

Personals

Mrs. W. K. Robinson is down from Trabuco for a few days' visit with her daughter, Miss Irene Robinson.

Miss Lillian Armentrout of Wamego, Kan., who has been visiting her old friend, Miss May Scholes, of West Pine street, has been called home by the illness of her father.

Martin Biggs of the Santa Fe office force, is on the sick list. His illness is not serious but he is receiving treatment in the company hospital for a few days.

Mrs. F. W. Winslow and Miss Blanche Smith were in Los Angeles yesterday visiting the little son of the former, who is being treated there.

Peter Fluor went to the Santa Ana Hospital today for a minor operation. His many friends will hope to see him around again soon.

Mr. and Mrs. J. H. Brooks, who left Monday for Chicago, called by the death of the former's father, returned the same evening, having received a telegram at San Bernardino advising them not to go on account of the snow blockades.

Miss Lenore McArthur of Rivera was an overnight visitor of old friends here, returning home today.

E. T. Cook, assistant operator at the Western Union office, is enjoying a vacation, which he is spending with relatives at San Jose. He is accompanied by his wife.

Dr. and Mrs. F. W. Slabaugh and Dr. and Mrs. J. E. Paul and son Cassius, were in Los Angeles last evening, the ladies and Cassius attending the opera and Messrs. Slabaugh and Paul enjoying a meeting of the Shrine.

E. R. Maury of Tustin has gone to Calexico for an indefinite stay, and has ordered his Register sent there till further notice.

E. J. Eaton left last evening for a visit in Los Angeles and Sawtelle. Mrs. Eaton will join him tomorrow and they will attend the Iowa picnic at Eastlake Park.

Patriotic Prayer Service

A patriotic prayer service will be held tomorrow night at the Richmond Avenue M. E. church. Hymns and scriptures suggestive of God's dealings with nations, will be used. In these times of trial no better way can we commemorate the birthday of our First President, than by a service of prayer for our country. All are invited to this service, at 7:30 p. m.

RIVERSIDE CALLS BIG MASS MEETING AS AID TO MILITIA COMPANY

RIVERSIDE, Feb. 21.—Mayor Fox issued a proclamation calling a mass meeting for the purpose of considering the international relations of the United States, and to take such action as may seem advisable, in view of the fact that "the affairs of the local military organization, Company M, Seventh Regiment, N.G.C., are in an uncertain and unsatisfactory condition."

The meeting will be held on Friday evening at 8 o'clock in the Elks' Club building.

ASH WEDNESDAY TODAY

Today was Ash Wednesday and Masses at St. Joseph's Catholic church were celebrated at 7 and 8 a. m. Services in Spanish this evening at 7:30.

During Lent there will be evening devotions on Wednesday evenings in Spanish and Friday and Sunday in English.

IN THE JUSTICE COURT SAYS SHOVEL USED TO THREATEN HIM

Ed Young today swore to a complaint charging A. E. Teggart with exhibiting a shovel in a threatening manner in the presence of Young and Lee Brown. Teggart pleaded not guilty, and his trial was set for March 13 at 2 o'clock.

Is Fined \$5
For hitting a Jap with his fist, fire.

George Wallas, a Greek, paid a fine of \$5 today. 6 BURN TO DEATH IN FIRE ON CANADIAN FARM

LETHBRIDGE, Alberta, Feb. 21.—It is believed here that six persons perished in a fire which destroyed the home of Fred Dase; in a lonely district five miles south of Taber, last Saturday. Coroner Humphries of Lethbridge, who visited the ruins, announced today that the bodies of Dase, his wife and his wife's sister, Mrs. John Tankrantz, had been recovered and that search was being made for the bodies of three children who were in the house at the time of the fire.

AT THE COURTHOUSE BY SETTLEMENT WILL CONTEST REACHES END

Reported That Mrs. Margaret Ferris Receives \$3500 of Campbell Estate

The trial of the contest of the will of Charles C. Campbell came to an abrupt end yesterday afternoon when a settlement was reached out of court, an instructed verdict given by the court and a dismissal of the contest entered.

The court records do not show the terms of the settlement, but it was stated yesterday that Attorneys Clyde Bishop, Dunnigan and Lewis stipulated the dismissal of the contest with Attorney Clyde Shoemaker and G. H. Woodruff, representing D. F. Campbell, after \$3500 was given Mrs. Ferris in settlement of the contest.

The will of C. C. Campbell left most of his estate, appraised at \$26,250, to the children of his brother, D. F. Campbell. The contest was instituted by Mrs. Margaret Ferris of Los Angeles, sister of C. C. and D. F. Campbell. The trial of the case has been going on for over a week, and the end was not in sight. The contestant was putting up \$24 a day jury fees.

On the opening day an attempt was made to reach a settlement out of court, but the attempt failed. Yesterday the attorneys began to talk compromise, and before the day was over the settlement was reached. On the instruction of Judge West the jury brought in a verdict, which reads as follows:

"We the jury in the above entitled action find that the will of Charles C. Campbell, deceased, was not procured by or through the undue influence of D. F. Campbell." The contest was dismissed.

Had the will been broken, Mrs. Ferris would have been entitled to one-fifth of the residue of the estate. Attorney Bishop stated that in the settlement yesterday she received as much as she would have received had the will been broken.

Yesterday Judge West decided an interesting point of law. Several witnesses were put on by the contestant's attorneys who described specific acts of C. C. Campbell. These witnesses were asked if they considered him rational or irrational. It was argued by Attorneys Woodruff and Shoemaker that no witness could answer the question unless it was shown that the witness was an intimate acquaintance or an expert on mental analysis. Yesterday Judge West ruled any witness could answer the question, basing his answer even upon one interview or circumstance.

Seeking Damages
W. A. Wood is defendant in two suits for damages. In one case, G. Matsunaga, a Jap, as guardian for T.

Matsunaga, aged 4, asks \$2500. The complaint alleges that on November 21, 1916, the 4-year-old child stood on the street, when Wood in an automobile came along and swung far to the right and off of the usual course of travel, and ran down the child, whose right leg was broken above the knee. The complaint states that the leg is half an inch shorter than its mate, and that as the child grows the difference in the length of the two legs will increase.

G. Matsunaga, father of the child, is plaintiff in a separate suit for \$495.70, against Wood. Judgment asked includes three items, \$80.70 for money spent for hospital service for the child, \$130 for medical care, and \$285 for the time the father lost in taking care of the child.

They Plead Guilty
Frank Spencer and Robbie Northrup, two youths who were arrested for breaking into the Ford garage, from which they admit that they stole an automobile, yesterday pleaded guilty to the charges against them. Judge Thomas set February 23 at 2 o'clock as the time for sentence. It is understood that the defendants will ask for probation.

Answer Filed
Answer and cross-complaint have been filed in the action of F. W. Harding against H. D. West. Harding sued for payment for some concrete work. West replies that part of the work will have to be done over again, and he asks for \$650 damages.

Divorce Decrees
Three final decrees of divorce were filed today. They are: G. Alice Bennett against George W. Bennett; Ida M. Koenen against William H. Koenen; Sadaki Bingo against Taki Bingo.

Belgian's Estate
Domien De Bruyn of Hynes has asked for letters of administration on the estate of his brother, Columbus, who died on January 25. The estate, valued at \$1450, is to go to six brothers, a sister and his parents in Ootzlaanderen, Belgium, and to the brother at Hynes.

Sustains Demurrer
Today Judge Thomas sustained the demurrer of the defendant to the second amended complaint in the action of the Santiago Orange Growers Association against Jacob Miller, leave to amend being given. The action was brought for judgment because Mueller sold his oranges outside of the association to which he belonged.

Sues for Divorce
Hattie Mae Shields has brought suit for divorce against L. C. Shields. D. G. Wettlin of Orange is attorney for the plaintiff. The couple married at Emporia, Kan., in 1900.

NEWPORT BEACH HEIGHTS TRACT IS VOTED INTO BEACH CITY

NEWPORT BEACH, Feb. 21.—With only four dissenting votes the territory of Newport Heights was voted into the incorporate limits of this city. The total vote within the city stood 131 for, and 4 against. The vote upon the Heights was unanimous in favor of the annexation.

Newport Heights lies in the direct line of the 700 foot channel shown in the plans for the improvement of the harbor and adjoins the 1500 foot strip deeded by the Irvine company to this city for wharfage. Comprising 600 lots and lying upon the mesa through which the Santa Ana boulevard extends, this tract of land is regarded by all as a much desired addition to this city.

As a residence section the newly acquired territory will present a particularly attractive site with its fertile land and commanding view of both bay and ocean.

That the annexation will react to the mutual benefit of both sections there is no doubt as the people on the mesa will now have the improvements enjoyed within the city.

LADYBIRD BEETLES TO WAR ON APHIS PEST SHIPPED TO BEAN MEN

SAN LUIS OBISPO, Feb. 21.—Ladybird beetles are being shipped to local bean growers here in large quantities daily. They are coming from Sacramento and are to be used in combating the bean aphid pest.

CRAIG TO BUILD BIG \$225,000 STEEL SHIP

LONG BEACH, Feb. 21.—John F. Craig, former owner of the Craig shipbuilding plant, now the California Shipbuilding Company, will commence work in the near future on a steel steamship to cost \$225,000, it has been learned.

While Mr. Craig is bound by contract with the California Shipbuilding Company not to engage in the shipbuilding business in Long Beach for ten years, there was nothing in the agreement to prevent him from building vessels for his own use.

R. H. Swayne of San Francisco is interested with Mr. Craig in the construction of the new steamship, which will be a duplicate of the Alvarado, built by the Craig Shipbuilding Company a few years ago and now owned by Craig & Swayne.

The machinery for the new vessel has already been purchased in the East.

HOPE FOR SAN PEDRO P. O. BUILDING SEEN

LOS ANGELES HARBOR, Feb. 21.—Hope for the early building of the proposed federal building at San Pedro was revived by news from Washington that the new Sundry Civil bill provides an increase of \$10,000 in the appropriation.

A federal appropriation called for \$60,000 and has been available for four years. Because an acceptable site could not be secured within the required percentage of the appropriation the building was never started.

Baked Fresh Twice Daily

"All is not gold that glitters." Neither is all wholesome that is tempting in appearance. It is not enough that bread should look well and taste well; it must be made of best Kansas flour, fresh milk, pure lard, and sugar, by a clean baker, in a clean bake shop.

Honeysuckle tastes delicious, and is positively as clean and wholesome bread as "Mother makes." And the fact that we make it in such large quantities and buy all ingredients at quantity prices, makes it impossible for Mother to duplicate the richness of Honeysuckle for less than 15c. Honeysuckle sells for 8c.

We are sure you will like Honeysuckle. We'd be glad to have you call us up and tell us if you don't.

Good health and nourishment in every loaf.

Children with well-developed appetites thrive on wholesome, pure Honeysuckle bread.

Baked fresh twice daily.

Simply delicious to the last bite. Try either and see.

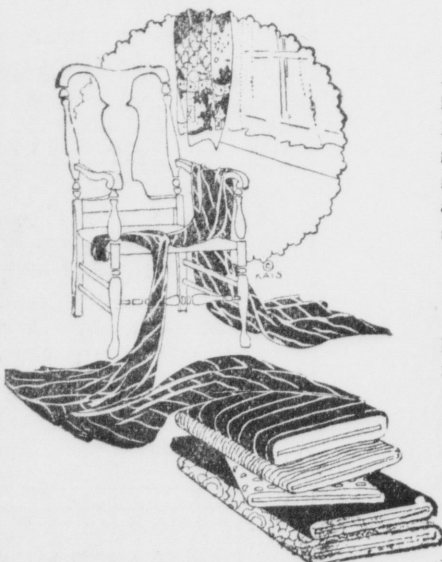

"Honeysuckle Bread"

COAST ARMY OF DEFENSE ALONG NEW LINES IS L. A. PLAN

Men to Be Employed In Federal Reclamation and Other Work

LOS ANGELES, Feb. 21.—An army of construction instead of destruction is planned by the American Society for National Defense, organized here by 500 leading business men. Security of the Pacific coast from invasion is the initial object, this to be obtained by enlisting young men from 17 to 21 in a great defensive body that also shall be utilized in government conservation, reclamation and development and development projects.

It is proposed that those enlisting shall receive not only military instruction, but shall be educated along the lines of best citizenship; they shall have vocational training and shall be located on the land and be taught to cultivate it.

The plan contemplates a great body of youths who will be utilized in conserving the natural resources, the building of military roads, reforesting the mountains and controlling floods on the plains and similar constructive work in the open. Such an organization, it is claimed, will pay its own way, offer an inviting life for young men at better than regular army pay and result in a trained military organization, being ready at any time to resist invasion. Instead of being an enormous expense, it is claimed that it will equip young men for useful citizenship and return dollar for dollar to the government in the development of great projects.

CALIFORNIA GETS BIG SUMS THROUGH O. K.'D SUNDRY CIVIL BILL

California appropriations in the Sundry Civil bill, which has been reported, include: Yosemite National Park, \$75,000 for grading the El Portal-Yosemite road to a width of twenty feet; \$80,000 for a new bridge at the site of the old Sentinel bridge; in repairs and maintenance of roads, trails and bridges, \$92,000; a total of \$247,000.

Sequoia National Park—Maintenance, \$25,000.

Gen. Grant National Park—Maintenance, \$20,000.

Benicia Arsenal—\$1700 for an elevator and \$2000 for an oil store-house.

Postoffice to be completed or construction continued—Bakersfield, \$27,000; Red Bluff, \$20,000 Los Angeles Harbor, \$10,000.

For mail-carrying machinery at the Fresno postoffice, \$2000 is provided and \$5000 for the same purpose at the Los Angeles postoffice.

Reclamation projects: Orland, \$43,000; Klamath, \$239,000. That the Wilson administration intends to continue the suits to oust the California claimants in the naval oil reserves is shown by an appropriation of \$65,000 for expenses of these suits.

STAY-AT-HOME DOLLAR BUSY

The Retail Merchants' Association, of Bristol, Tenn., is testing the purchasing power and debt-paying capacity of a single dollar, when kept at home and used in local trade channels, as compared with a dollar that is sent out of the city to a mail order house, probably never to return.

A labeled dollar bill has just been returned to the association after having been in circulation for 30 days. It was applied on sixty-eight accounts and made as many purchases. The record of its travels was kept on a tag securely attached to the note, the names of all concerns handling the dollar being written down. The association will turn the bill loose again for another period test.

CHATEAU LAFAYETTE IS TRANSFORMED INTO YANKEE INSTITUTION

BY WILLIAM S. FORREST
 (United Press Staff Correspondent)
 PARIS, Feb. 20.—The Chateau de Chavaniac-la-Lafayette, birthplace of General Lafayette, Washington's famous aid, in the American Revolution, is today like Mount Vernon, an American institution.

Though located near Briode, Department of Haute-Loire, in France, the chateau, after the war, will be available for American homage.

During the war, according to information today, the building will be partially used for a hospital but later it will doubtless be converted into a Franco-American memorial museum.

H. Cleveland Coxe, former American Vice-Consul-General, in Paris was the originator of the plan to purchase General Lafayette's birthplace. Recently he obtained an option to purchase from the present Marquis de Lafayette. He then communicated with prominent Americans who gathered the funds.

The chateau, a two story, white building, flanked by two round towers, is situated on the crest of a small hill which commands a beautiful view of the surrounding mountains of Auvergne.

The American committee will endeavor to restore the structure, in all details, to its appearance at the time of the famous general's birth, especially a small room in one of the towers in which he was born.

The American committee is headed by Mrs. William Astor Chanler, as president; John Moffat, chairman, and has among its members Colonel Roosevelt, Joseph H. Choate, Clarence H. Mackay, George von L. Meyer, former Secretary of the Navy; John Grier Hibben, President of Princeton; Mrs. Jay Gould, Mrs. Harry Payne Whitney, Mrs. Marshall Field, Dr. Nicholas Murray Butler, Gouverneur Morris, Booth Tarkington, Owen Wister and many others.

CIVIL SERVICE AIDE EXAMS TO BE HELD

SACRAMENTO, Feb. 21.—To select an assistant examiner for the State Civil Service Commission, the commission will hold an examination in Los Angeles, San Francisco and Sacramento on March 17. The entrance salary is \$1500 a year. The principal duties will be to assist in conducting examinations for positions in the state service.

DISPENSATION OF CHARITIES IN COUNTIES IS PLAYED

'Investigating Agent' Method In Orange County Held Fairly Satisfactory

SACRAMENTO, Feb. 21.—The method of dispensing charity in most counties of the state is severely criticized by the State Board of Charities and Corrections in a report today.

This method, which consists of relief being given directly by the county without other investigation or supervision than that of the supervisors, is followed in these counties:

Alpine, Amador, Butte, Calaveras, Colusa, Del Norte, El Dorado, Fresno, Glenn, Humboldt, Inyo, Kern, Kings, Lake, Lassen, Madera, Mendocino, Mariposa, Merced, Modoc, Monterey, Nevada, Placer, Plumas, San Benito, San Bernardino, San Mateo, Santa Cruz, Shasta, Sierra, Siskiyou, Stanislaus, Sutter, Tehama, Trinity, Tuolumne, Yuba and Yolo.

Method Unsatisfactory

"The studies made," says the state board, "show that this method is thoroughly unsatisfactory, because relief is too often given without complete and accurate knowledge of the facts of the case. Supervisors are busy men. Obviously, they cannot secure intimate knowledge of the details of each poverty case. This method is a failure not only from the viewpoint of the proper treatment of the poor, but because it is wasteful—both of money and of human life. County funds are expended without exact knowledge of the real circumstances of the cases aided. Relief is frequently given to those unworthy of it, while the worthy are overlooked. Investigation shows that many of the supervisors know nothing of the people whom they are helping. Cases have been found of persons drawing aid from the county when they did not even live in the county helping them; other cases of shameful neglect of young children and infants have been located and brought to the attention of the county authorities. Frequently relief is given when there are relatives who are legally liable and able to provide for the care of the dependent.

Records Chaotic

"The records of relief cases in the counties using this method have been found chaotic and incomplete. In nearly forty California counties today a taxpayer cannot find out how many people are being supported out of public funds. Relief procedure of this type, therefore, becomes stupid and unsatisfactory. It is subject to all manner of political abuses and is not infrequently used to further personal and political ends."

Commenting on the method used by ten counties—appointment of an agent to investigate all cases—the board says: "For small counties having relatively few cases—this 'investigating agent' method is perhaps fairly satisfactory. In larger counties, however, it has been found that a single agent for the whole county is able to do little more than investi-

"There's a Reason"

WINTERSBURG BRAND NEW AUTO DAMAGED THROUGH REAR END SMASH

Wagon Without Light Struck
By Wintersburg Machine
—News Notes

WINTERSBURG, Feb. 21.—What might have been a very serious accident occurred Sunday night when Don McMillan, driving his new auto, collided with the rear end of a hay wagon on that had no light. In the auto were Mr. and Mrs. McMillan and children, and Mr. and Mrs. Elmer Gohard and two children. They were returning from Fullerton and were on the other side of Garden Grove when the accident happened. The auto, a new 1917 Ford, is McMillan's second car, and was delivered to him only the day before. The impact with the wagon was sufficient to break the windshield and the wheels, and to give the occupants a shaking up, from which it will take them some days to recover. The owner of the hay wagon, although not the driver, will pay all

STOPS HEADACHE, 'PAIN, NEURALGIA

Don't suffer! Get a dime pack
of Dr. James' Headache
Powders.

You can clear your head and relieve a dull, splitting or violent throbbing headache in a moment with a Dr. James' Headache Powder. This old-time headache relief acts almost magically. Send some one to the drug store now for a dime package and a few moments after you take a powder you will wonder what became of the headache, neuralgia and pain. Stop suffering—it's needless. Be sure you get what you ask for.

RUB YOUR EYES

and get a clear vision of the possibilities of Fruit and Nut growing without irrigation in the Templeton-Paso Robles district—a swell place for a home—money making opportunities undreamed of a few years back, a combination of desirable conditions possessed by no other locality in the state these are reasons why so many men from Orange county and other Southern California points are investing there.

10 acre lots, best orchard zone, near town, fine soil for almonds, walnuts, pears or prunes—all money makers—\$90.00 to \$175.00 per acre.

10 acre lots, young orchards just coming into bearing, \$300.00 to \$400.00 per acre.

Here are two good ones, combinations suitable for dairying, hog raising and fruit growing, ¼ mile from high school.

30 acres, ½ in alfalfa, ½ in fine pear, prune or walnut land, \$200.00 per acre.

43 acres adjoining and in the same combination and price, the alfalfa land owns electric pumping plant and modern cement pipe line system.

Ask me for further information about property there.

damages to the McMillan car.

Basketball Games

Two games of basketball are on for Friday afternoon at the Ocean View school grounds. The boys' second team plays against a team from the Westminster grammar school, and the girls play with the Westminster girls. The playing will no doubt be first class, and a large number of visitors are expected.

The Queen Esther Society was entertained at the parsonage Monday evening with a quiet little party, at which the approaching birthday of Washington was the feature of entertainment. After the games, instrumental and vocal music was enjoyed. Those who attended Monday evening were Miss Ina Clemens, Mrs. James Haptonstall, Miss Viola Walton, Miss Lizzie Gothard and Miss Eva Murdy.

Mr. and Mrs. Frank Ulrich were called to Santa Ana Monday by the serious condition of their brother, Cliff Ulrich. They remained until late Monday. The brother passed away Monday afternoon. Quite recently—in January—these two brothers and Charlie, a third brother, who lives in Nebraska, enjoyed a visit together when the latter was touring the West.

Wintersburg Notes

Charlie Graham of Puente spent Sunday here.

Mr. and Mrs. Tom Clay, Miss Jennie Clay, Ralph Clay, Mrs. Nellie Murdock and Andrew Magnuson, all of Los Angeles, were guests of Mr. and Mrs. W. F. Slater over Sunday.

Mrs. Earl Farrar and her house guest, Mrs. Lottie Waite, of Los Angeles, spent Wednesday visiting the former's parents, Mr. and Mrs. Ed Moore, of Orange.

GEORGIA 'DRY,' BUT NOT ABSOLUTELY

ATLANTA, Ga., Feb. 20.—With states right and left, not to speak of Alaska, being made "bone dry," Georgia, whose prohibition laws do not forbid the shipping of liquor into the state, seems to be a "semi-wet" state. Anti-liquor leaders have been urging Governor Harris to call an extra session of the legislature to pass a sure enough, outright prohibition law that will really prohibit.

A. W. Jones, a wealthy planter, has offered \$20,000 to the state to defray the expenses of an extra session for that purpose. Mr. Jones says liquor is demoralizing the farm labor of the state. Governor Harris has not yet announced his decision.

SYMPTOMS OF HER DISEASE

Backache, Sideache, Nervousness, Dizziness, Faintness, all Disappeared After the Woman's Medicine was Taken.

Kingfisher, Okla.—"For two years I suffered with a severe female trouble, was nervous, and had backache and pain in my side most of the time. I had dizzy spells and was often so faint I could not walk across the floor. The doctor said I would have to have an operation. A friend asked me to try Lydia E. Pinkham's Vegetable Compound.

After taking ten bottles I am now well and strong, have no more pain, backache or dizzy spells. Everyone tells me how well I look and I tell them Lydia E. Pinkham's Vegetable Compound did it."—Miss NINA SOUTHWICK, R. F. D. No. 4, Box 33, Kingfisher, Okla.

Every woman who suffers from female troubles, nervousness, backache or the blues should try Lydia E. Pinkham's Vegetable Compound as Mrs. Southwick did, or if they need free advice in regard to any annoying symptom write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

From the Los Angeles Examiner

Bay State of Chloride District Leased

CHLORIDE, Ariz., Feb. 18.—Word has been received that the Bay State mine has been taken over by the Hughes Arizona Copper Company on a long time lease.

The rich Towne mine veins run full length of the Bay State. It is practically in the center of Chloride's best mineralized section, lying as it does between the Towne and Pinkham mines and sideling the Midnight.

Hoisting machinery will be installed at once and the mine unwatered. As soon as this is done, crosscutting for the Towne veins will be commenced. It is estimated that 75 to 100 feet of work will cut both veins.

This news coming as it does on top of the recent developments at this company's other properties is encouraging and Chloride will watch with much interest the re-opening of the Bay State.

Edward B. Hughes, superintendent of the work at Hughes copper tunnel, will also have charge of operations at the Bay State.

The Arizona Ore Reduction Company's mill is nearing completion and it is reported will be ready for custom ores in less than six days. Every operator in camp is pushing development and the new mill should be taxed to its capacity in a short time.

TUSTIN

LAST OF LYCEUM LECTURES WILL BE GIVEN WEDNESDAY

Pleasant Social Affair Marks
Departure of Neighbors
From Tustin Home

TUSTIN, Feb. 21.—On next Wednesday night, February 22, the last number of the Tustin Lyceum course will be given by Adrian M. Newsen, an impersonator. It is said that Mr. Newsen "under the cloak of an entertainment and with surprising command of voice, expression and gesture, portrays his characters from life without the aid of any make-up."

Chamber of Commerce

The regular monthly meeting of the Tustin Chamber of Commerce will be held next Tuesday night at the school auditorium.

Neighborhood Party

For the purpose of bidding goodbye to Mr. and Mrs. Charles White, their old neighbors were invited to meet them at the home of Mr. and Mrs. C. A. Broomell Tuesday evening before their departure on Thursday to their new home at Hemet. Their going away is very much regretted by neighbors who have been associated with them for several years. A good social time was enjoyed and the hostess served delicious cake and ice cream.

Those present were Mr. and Mrs. A. D. Turner, Mr. and Mrs. C. M. Alderman, Mr. and Mrs. Hollis Lindsey, Mr. and Mrs. J. W. Broomell.

Tuesday Afternoon Club

The Tuesday Afternoon Club was enjoyably entertained this week by Mrs. Lou Allen. The members of this club, all young mothers, take the children along and fancy work is done at intervals between entertaining the little ones. The pleasant social afternoon was enjoyed by Mrs. Alfred Leach, Mrs. Byron Johnson, Mrs. Charles Bowman, Mrs. McMullen and Mrs. Martin. A delicious luncheon of sandwiches, fruit salad and chocolate was served.

Birthday Party

A number of little girls were delightfully entertained last Saturday afternoon by Lillian Dowell at a Valentine party upon the occasion of her twelfth birthday at her home on Laguna avenue.

Pretty valentine decorations were used and the time sped quickly as they played merry games both indoors and on the lawn and a musical program by the girls was an enjoyable feature.

Refreshments were cream puffs, dainty sandwiches, a variety of cake and punch.

The guests were Marian and Eileen Young, Esther and Margaret Jones, Laurene Sauer, Nellie Ware, Mabel Culver, Elizabeth McDougall, Lenora and Cinderella Phinney and Evelyn Hoffman.

Personal

Miss Ella Awe visited her sister, Miss Emma Awe, at the U. S. C. last week. Miss Louie Adams returned home with them for the week end.

Mr. and Mrs. C. L. Awe and family will attend the Iowa picnic at Eastlake Park, Los Angeles, on Thursday.

E. J. Crane of Aurora, Ill., is visiting his cousin, Charles S. Albee, Mr. Crane will visit his son at Dallas, Texas, on his return east.

Mr. and Mrs. Ernest Schilling of Jamestown, N. D. who are spending the winter in California, were weekend guests of Mr. and Mrs. Roy Johnson.

Miss Mabel Dawson of Rushville, Ill., is a guest of Mrs. J. A. Fuller.

Mrs. Ed Robinson of Los Angeles, who has been visiting her parents, Mr. and Mrs. T. J. Crawford, for the past two weeks, returned home Monday.

Mrs. Robinson, Miss Alma Cook and Mrs. Elizabeth McEach were taken to the city by Mr. Crawford in his new Cadillac. They will attend the Iowa picnic Thursday.

Miss Grace Hatfield returned Saturday from a two-weeks' visit to Mr. and Mrs. C. A. Marcy at Glendale. Mr. and Mrs. Marcy accompanied her home and visited with friends in Tustin till Sunday evening.

DENIES INCREASE IN
SALARY TO BE ASKED

SACRAMENTO, Feb. 21.—Will C. Wood, state high school commissioner, declares erroneous the report that the state educational commissioners will ask an increase in salary from \$4000 to \$4500 a year.

As a conclusion to the program, the pastor was invited, after supper, to part the curtains of the class room at the rear of the church and take possession of what he should find. The company were then invited to follow the lead of the Pastor and his wife to the dining room. Here a delicious luncheon had been prepared, consisting of sandwiches, and cakes of many varieties. Mrs. Swales and Mrs. Armstrong presided at the table, dispensing steaming chocolate from the silver urns.

After supper, the pastor obeyed instructions, and found in the class room a table laden with gifts from the people of the church, consisting of gifts of money, also a large assortment of canned fruits, and a great variety of produce from farm, garden, and orchard. The whole affair was a successful event, reflecting much credit to the organizers and the church in general.

WOMEN JUDGE DOGS IN
MADISON SQUARE SHOW

NEW YORK, Feb. 20.—Every dog certainly will have his day at Madison Square Garden beginning with this one. Eight women judges will pass on the respective qualities of the fabulously valued Fidos at the Westminster Kennel Club Show, which is perhaps the dog show with more real dog than any like event anywhere in the United States.

Mrs. E. C. Huntington of Brooklyn will choose the prize-winners among the bull terriers. Lady Savory of Stokes Rogis, England, is scheduled to be here to pass on the Scotchmans, though the German blockade may delay her. English and Gordon setters will be featured by A. F. Hockwell of Dayton, Ohio, and Irish setters by Dr. Alexander Glass of Philadelphia. An unusually large number of Canadian entries are booked. Fox and beagle hounds will be present in large and copious quantities.

WHO GOT AWAY WITH THE PORKER? CHARLES FIPPS WANTS TO KNOW

Being a Tale of a Barbecue
That Failed Utterly to
Materialize

Who got away with the pig? Charles Fipps wants to know. Fipps is one of the drivers for the Crown Stage Line. He came into possession of the porker while on his run between Santa Ana and Anaheim.

The little squealer fell out of a farmer's wagon. A motorist happening along collided with the pig and dealt the animal a mortal blow.

Fipps arrived on the scene, struck the pig and was made a present of it by the farmer.

Fipps carried his prize to the Crown Stage garage, dressed it and announced that he would give a barbecue to the other drivers at Orange County Park Saturday evening.

Rain came on, putting a quietus on the barbecue plans.

Fipps called up his home, saying that the porker would be eaten there. The other drivers got wind of this new plan of Fipps' and, quite naturally, the plan did not make a hit with the Jehus; at least it would not appear so. For—

Fipps went to the garage to get his pig—the pig was gone.

Who got away with the pig? Fipps wants to know.

THIRTY MEMBERS TAKEN INTO M. E. CHURCH AT HARPER

HARPER, Feb. 20.—On Friday evening last a splendid social gathering was held at the Methodist church at Harper. During the past six months thirty new members have been received into the fellowship of the church, adding strength to the church.

Recognition of this a reception was held for the new members and the pastor and his wife, Rev. and Mrs. John Wood, of Newport Beach.

The church was arranged with open space in the center of the floor being nicely carpeted for the occasion, lending a festive air to the room. The main auditorium was decorated with acacia, lilies and other flowers. The dining room was gaily festooned with acacia and violets.

Shortly after 8 o'clock the company was called to order by Mrs. E. A. Spaulding, who acted as presiding officer of the occasion, and a short, interesting program was given. "Blest Be the Tie that Binds," sung by the assembled company, and prayer by the pastor, was followed by two songs by Miss Mabel Sharp, piano solos by Miss Mignon Swales, readings by Mrs. Wood and two numbers by members of "The Kings Daughters" class.

On invitation of Mrs. Spaulding, as presiding officer of the occasion, Mrs. Armstrong made the address of welcome to the new members of the church. She also spoke in glowing terms of the work of the pastor and the appreciation of the people for the work he had done and was doing.

Rev. Wood was then invited to reply to the address of welcome. In a brief but felicitous manner he thanked the previous speaker for her words of welcome and commendation, and then gave "A Charge" to the new members—and to all the members of the church, speaking from Paul's great words to Timothy, "Be thou an example to the flock of Christ." He referred to the fact that these words are often used by the Bishop at the time of annual conference to the newly ordained ministers. He said that "example," as Paul used the term, implied influence. Therefore the question for the new members was, "What kind of an example am I setting?"

"Holiness of life is required of the professing Christian," said he. "There must also be an absolute integrity, an uprightness of life that will not only delight to give the 'square deal,' but give 'the other fellow the benefit of the doubt.'"

As a conclusion to the program, the pastor was invited, after supper, to part the curtains of the class room at the rear of the church and take possession of what he should find. The company were then invited to follow the lead of the Pastor and his wife to the dining room. Here a delicious luncheon had been prepared, consisting of sandwiches, and cakes of many varieties. Mrs. Swales and Mrs. Armstrong presided at the table, dispensing steaming chocolate from the silver urns.

Former United States Senator Mason Pioneer in Pure Food and Drugs Legislation, Father of Rural Free Delivery System Takes Nuxated Iron

to obtain renewed strength, power and endurance after the hardest fought political campaign of his life in which he was elected Congressman-at-large from the State of Illinois. The results he obtained from taking Nuxated Iron were so surprising that

SENATOR MASON NOW SAYS

Nuxated Iron should be made known to every nervous, run-down, anaemic man, woman and child.

Opinion of Doctor Howard James, late of United States Public Health Service, who has prescribed and thoroughly tested Nuxated Iron in his own private practice.

WHAT SENATOR MASON SAYS:

"I have often said I would never recommend medicine of any kind. I believe that the doctor's place is, however, after the hardest political campaign of my life, without a chance for a vacation, I had been starting to court every morning with that horrible tired feeling, I cannot describe. I was advised to try Nuxated Iron. As a pioneer in the pure food and drug legislation, I was at first loath to try an advertised remedy, but after advising with one of my medical friends, I gave it a test. The results have been so beneficial in my own case I made up my mind to let my friends know about it, and you are at liberty to publish this statement if you so desire. I am now sixty-five years of age, and I feel that a remedy which will build up the strength and increase the power of endurance of a man of my age should be known to every nervous, run-down anaemic man, woman and child."

Senator Mason's statement in regard to Nuxated Iron was shown to several physicians who were requested to give their opinion thereon. Dr. Howard James, late of the United States Public Health Service, said:

"Senator Mason is to be commended on basing out this statement on Nuxated Iron for public print. There are thousands of men and women who need a strength and blood-builder, but do not know what to take. There is nothing like organic iron—Nuxated Iron—to give increased strength, snap, vigor, and staying power. It enriches the blood, brings roses to the cheeks of women and is an unfailing source of renewed vitality, endurance and power for men who burn up too rapidly their nervous energy in the strenuous strain of the great business competition of the day."

Dr. King, a New York physician and author, said: "I heartily endorse Senator Mason's statement in regard to Nuxated Iron. There can be no vigorous man without iron. Pallor means anemia. Anemia means iron deficiency. The skin of enemic men and women is pale, the flesh flabby; the muscles lack tone, the brain fags, and the memory fails, and often they become weak, nervous, irritable, despondent and melancholy."

"In the most common foods of America, the starches, sugars, table syrups, candies, polished rice, white bread, soda crackers, biscuits, macaroni, spaghetti, tapioca, macaroni, and the many other foodstuffs, iron is not to be found. Refining processes have removed the iron from the earth from these impoverished foods, and silly methods of home cooking, by throwing down the waste pipe the water in which our vegetables are cooked, are responsible for another cause of iron deficiency."

"Therefore, if you wish to preserve your youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron—Nuxated Iron—just as you would use salt when your food has become saltless."

Dr. E. Sauer, a Boston physician who has studied abroad in great European medical institutions, said: "Senator Mason is right. As I have said a hundred times, organic iron is the greatest of all strength builders."

"Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of twenty and as full of vigor, vim and vitality as a younger man. In fact, he was in bad health; at forty-six he was care-worn and nearly all in. Now at fifty, after taking Nuxated Iron, a miracle of vitality and his face beaming with the buoyancy of youth, iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying

NOTE—Nuxated Iron which is prescribed and recommended above by physicians in such a great variety of cases, not only builds up the strength of the body, but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians both in Europe and America. Unlike the older inorganic iron products it is easily assimilated, does not injure the

teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion as well as for nervous, run-down conditions. The manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any man or woman under 60 who lacks iron, and increase their strength 200 per cent or over in four weeks' time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Rowley Drug Co. and all good druggists.

UNLOCK OIL, POTASH RESOURCES SAYS LANE

WASHINGTON, Feb. 20.—Secretary Lane has addressed a letter to Chairman Myers of the Senate public lands committee, suggesting legislation to enable the government to unlock resources of petroleum and potash now confined on lands withdrawn from public entry.

Some 6,000,000 acres of oil lands, the secretary said, are in such status that no wells can be bored upon them, and only private lands are producing. The largest deposit of potash, fundamental in making explosives, also is withdrawn.

Secretary Lane suggested the passage of the mineral land leasing bill, which would unlock those resources, or that there be legislation to permit the government to bore wells on oil lands. He made his suggestions primarily in the interest of the preparation for national defense.

Former United States Senator Wm. E. Mason, recently elected Member of the U. S. Congress from Illinois.

From the Congressional Directory, published by the United States Government—"Wm. E. Mason, Senator from Illinois was elected to the 50th Congress in 1887, to the 51st Congress in 1891, defeated for the 52nd Congress in 1895—Elected Senator to the 55th Congress 1897 to 1903."

Senator Mason was elected Congressman from the State of Illinois.

Senator Mason's championship of Pure Food and Drugs legislation, his fight for the rural free delivery system, and his strong advocacy of all bills favoring labor and the rights of the masses as against trusts and combines, made him a national figure at Washington and endeared him to the hearts of the working man and the great masses of people throughout the United States. Senator Mason has the distinction of being one of the really big men of the nation. His strong endorsement of Nuxated Iron must convince any intelligent thinking reader that it must be a preparation of very great merit and one which the Senator feels is bound to be of great value to the masses of people everywhere, otherwise he could not afford to lend his name to it, especially after his strong advocacy of pure food and drugs legislation.

Since Nuxated Iron has obtained such an enormous sale—over three million people using it annually—other iron preparations are often recommended as a substitute for it. The reader should remember that there is a vast difference between ordinary metallic iron and the organic iron contained in Nuxated Iron; therefore always insist on having Nuxated Iron as recommended by Dr. Howard James, late of the United States Public Health Service; Dr. Schuyler C. Jacques, Visiting Surgeon of St. Elizabeth's Hospital, New York, and other physicians. In this connection Dr. Howard James says:

"Iron to be of the slightest value to the human system must be in a combination which may be easily assimilated. In the case of metallic salts of iron, iron acetate, etc., it is very doubtful if sufficient actual iron can be taken up and incorporated into the blood to be of any service, especially in view of the disadvantages entailed by its corrosive action upon the stomach and the damaging effect upon the dental enamel. When, however, we deal with iron in organic combinations, such for instance as albuminate, or better still, Nuxated Iron, a far different story is told. We will observe no destructive action upon the teeth; no corrosive effect upon the stomach. The iron is readily assimilated into the blood and quickly makes its presence felt in increased vigor, snap and staying power."

NOTE—Nuxated Iron which is prescribed and recommended above by physicians in such a great variety of cases, not only builds up the strength of the body, but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians both in Europe and America. Unlike the older inorganic iron products it is easily assimilated, does not injure the

teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion as well as for nervous, run-down conditions. The manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any man or woman under 60 who lacks iron, and increase their strength 200 per cent or over in four weeks' time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Rowley Drug Co. and all good druggists.

ORANGE COUNTY RADIATOR WORKS

EACH INDIVIDUAL HAS AN END IN HIMSELF, SAYS NEALLEY

Third Lecture In Course of Constructive Philanthropy Given Last Night

The third lecture in the Course of Constructive Philanthropy under the auspices of the Associated Charities, was given in the Intermediate school last evening when James B. Williams, director of the Outdoor Relief Department of the Los Angeles County Charities, and E. M. Nealley presented the subject of Modern Philanthropy, its History and Development. Mr. Williams gave a most interesting account of the charity work in Los Angeles county, its problems, aims and course of development.

He emphasized the need of trained service and the need of effective volunteer co-operation.

"We want your money—and your lives," he said, "was the motto of the Buffalo Charity Organization Society, and Buffalo," he added, "numbers 700 volunteer workers besides its staff of trained workers. A community cannot hope to solve its social service problems until it realizes the immediate responsibility of the private individual to these problems. To humanize social service and prevent officialdom it is necessary to enlist the sympathy of all agencies in the community and to develop the initiative of those immediately responsible for the social service work in order to promote effectiveness and prevent routine service."

A CALIFORNIA WOMAN TESTIFIES.

Oakland, Cal.—"When I was a girl I suffered much. I saw an advertisement of Dr. Pierce's Favorite Prescription and took this for six months, which cured me. I also took it at the critical time of life and have given it to all three of my daughters. We always use the 'Golden Medical Discovery' when we need a tonic or to build up. I can heartily recommend Dr. Pierce's remedies for they have merit and can be relied upon."—Mrs. H. MEADE, 908 55th St.

Dr. Pierce's Favorite Prescription is a true friend to women in times of trial and at times of pain when the organs are not performing their functions. For headache, backache, hot flashes, catarrhal condition, bearing down sensation, mental depression, dizziness, fainting spells, lassitude and exhaustion, women should never fail to take this tried and true woman's medicine.

Prepared from nature's roots and herbs, it contains no alcohol or narcotic, nor any harmful ingredient. In either tablet or liquid form. Write Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., to-day. Get book on woman's diseases, sent free.

Dr. Pierce's Pleasant Pellets are the original little Liver Pills. These tiny, sugar-coated, anti-bilious granules—the smallest and the easiest to take. One little "Pellet" for a laxative—three for a cathartic.

Questions of Sex—Are fully and properly answered in The People's Common Sense Medical Adviser, by R. V. Pierce, M. D. It contains the knowledge a young man or woman, or daughter should have. 1008 pages with color plates, and bound in cloth. By mail, prepaid—on receipt of 3 dimes or stamps.

Every Individual Worth Saving
Mr. Nealley outlined the history of the charity movement with some valuable charts.

"There are in society certain classes who, by reason of inability to make adjustments to life conditions, must be cared for by others," said Nealley. "These are collectively known as the 'unfit,' subdivided for convenience into three classes—the Dependents, Defectives and Delinquents. Under the first are grouped infancy, old age, illness, misfortune, insufficient earning power, etc., all of which induce poverty and pauperism. Under Defectives are classed all forms of bodily and mental infirmities. Under the third all those who do things forbidden by law.

"There are two general motives leading us to provide for these people who cannot adjust themselves to society: (1) The humanitarian, based on the belief that every individual is an end in himself and is worth saving. It is a recognition of the value of personality as such. The second motive is that of the protection of society. These classes are a menace and a burden. The world will be a better place to live in if these groups of people are removed.

"This brings us a threefold problem in caring for these classes: (1) The problem of reclamation, or rehabilitation. To those who are capable of being restored to normal life should be helped to do so. People who have once got out of adjustment seldom are able to make adjustments without the help of others. (2) Those who cannot be reclaimed should be permanently provided for. (3) The problem of furthering social progress by dealing with the conditions that cause poverty, defectiveness and crime."

Mr. Nealley then traced the evolution of Philanthropy under two general divisions: First, that of the evolution of the impulse of pity or sympathy, showing how this element had its origin in the mother love for the child, even back in the animal world, and slowly expanding to the sense of social solidarity.

Under the second head was traced the evolution of charitable agencies and legislation giving expression to this philanthropic impulse. In the Middle Ages the poor were cared for by the church and religious orders, which in time resulted in a parasitism and prostration of begging. When Henry VIII of England dissolved the monasteries in 1536 a large number of indigents were thrown upon the public for support. To take care of these persons the English Poor Laws were enacted, which resulted in creating more poverty than resulted from the monastic system. At one time they provided that if a man's wages fell below a certain amount the deficiency was made up out of the public treasury, thereby encouraging idleness. To correct this severe laws against beggary and vagrancy were enacted.

The industrial revolution, or introduction of machinery at the close of the eighteenth century resulted in a great increase of poverty and misery. The factory system superseded the domestic system and in its train came many evils and abuses.

First Charity Work
The first attempt to handle the matter of charity began with Dr. Chalmers' experiment in Glasgow in 1819. The city was divided into districts, and the work scientifically treated.

The next step was the Elberfeld system in Germany, which was the first municipal or public undertaking in caring for the poor. It followed in the main the lines laid down by Dr. Chalmers.

In the United States in the fifties a number of societies sprang up, known as "Societies for the Improvement of the Poor. The first Charity Organization Society of the modern type was founded in Buffalo, N. Y., in 1877. Other cities soon followed the example.

The main features of charity organization were: (1) Investigation, (2) Friendly visiting, (3) Co-ordination of

all existing agencies of relief to act as a clearing house for information and records so as to prevent fraud, imposture, overlapping and duplication.

The National Conference of Charities and Corrections was formed about 1872, as the outgrowth of the American Social Science Association. "Charities," a monthly publication, now known as "The Survey," was started in 1887.

Probably the most notable event in the history of charitable organization was the Russell Sage Foundation established in 1907 for the purpose of sociological research and co-ordination of activity. The work of this foundation is conducted under ten divisions, one of which is the Department of Charity Organization. The whole movement has been studied and results gathered from every quarter, tabulated and model plans and suggestions for the greatest efficiency have been prepared for the use of the Associated Charities.

Largely as the result of this work of the Russell Sage Foundation there has come about a decided change of emphasis and point of view in all charity work. The old charity placed the emphasis on individual shortcomings. The new places it on social conditions which make and mould character. The idea of the old was mainly to strengthen character. The idea of the new is that in strengthening character the greatest need is often opportunity.

The New Charity

The new charity, also, studies causes rather than merely attempting to deal with symptoms. The movement in other words has been from almsgiving to reconstruction, rehabilitation, prevention and social control. The Lady Bountiful has been replaced by the social engineer. Movements to eliminate the word "charity" altogether are seen everywhere. The Seattle organization is known as "The Council of Social Agencies." The Santa Ana Associated Charities has underneath its office sign the words, "Social Service Headquarters."

It is a significant fact that the presidential address announced for the 1917 meeting of the National Conference of Charities and Corrections, has the title, "The End of Poverty!" A dozen years ago this would have seemed altogether Utopian. Today the ending of poverty is the motive of all constructive philanthropy. "Charity" of the future will be applied sociology. Society will be planned. We will aim to control social forces, just as we have learned to control the mechanical forces of nature. We will grow humans.

The whole drift of today may be summed up in these words, "All of scientific social effort turned to the solution of all main practical problems of community welfare."

The success of the practical work of the Associated Charities is not to be measured by the amount of money expended in material relief, but by the constructive work along the lines of the New Philanthropy.

Rev. W. H. L. Benton, in charge of the Church of the Messiah, Episcopal, has announced Lenten services, commencing with today, which is Ash Wednesday, as follows:

Ash Wedn'sday—Feb. 21
Holy Communion and address, 9:30 a. m. Evening prayer, Litany and address, 7:30 p. m.

Sunday Services
Holy Communion, every Sunday, 7:30 a. m. Holy Communion, first Sunday in month, 11 a. m. Morning prayer and sermon, other Sundays, 11 a. m. Evening prayer and sermon, 7 p. m. Sunday school every Sunday, 9:45 a. m.

Week Day Services
Tuesdays, evening prayer and address, 7:30 p. m. Wednesdays, evening prayer and reading, 4:15 p. m. Thursdays, Holy Communion, 9:30 a. m. Thursdays, Confirmation lecture, 4:15 p. m. Fridays, Litany and Bible class, 4 p. m.

Holy Week
Every day, the Epistle and Gospel and address, 9:30 a. m. Maunday Thursday, Holy Communion, 9:30 a. m.

Good Friday—April 6
The three-hour service, 12—3 p. m. Easter Day—April 8
Holy Communion, 7:30 a. m. Holy Communion and sermon, 11 a. m. Children's Easter service, 7 p. m.

On Saturday, Easter eve, April 7, Holy Baptism will be administered to all who apply. The service being at 4 p. m.

"Pape's Cold Compound" Ends Colds and Grippe in a Few Hours

—Take "Pape's Cold Compound" every two hours until you have taken three doses, then all gripe misery goes and your cold will be broken. It promptly opens your clogged-up nostrils and the air passages of the head; relieves the headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay snuffed-up! Quit blowing and snuffing. Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitute.—Advertisement.

HOW TO CHECK THAT COLD
When it is painful to breathe and fever sends chills up and down your back, you are in for a cold. A timely dose of Dr. Bell's Fine Tar Honey will stop the sneezes and sniffles. The pine balsam loosens the phlegm and clears the bronchial tubes, the honey soothes and relieves the sore throat. The antiseptic qualities kill the germ and the congested condition is relieved. Croup, whooping cough and chronic bronchial affections quickly relieved. At all Druggists, 25c.

Dr. Enoch, phone 602W, 411½ Main.

DESPERATE DRIVE YANKEE LAYOUT LOOKS BETTER THAN IN 1916

BY WILLIAM PHILIP SIMMS
(United Press Staff Correspondent)
WITH THE BRITISH ARMIES IN THE FIELD, Feb. 21—Every indication leads to the belief that the German will attempt an offensive on the western front this spring; but the British regard this probability with calm.

"As usual," an officer declares, "the Germans are trying to muddy the water to keep us from seeing which way they jump. From that one usually describes as 'reliable sources' we learn that there is to be a drive on Odessa, a drive against Petrograd, a drive against Saloniki and a drive against the western front."

"Obviously all these drives cannot materialize. The German commanders encourage the circulation of these reports if not actually start them themselves. They hope to fool the Allies by this means; to keep us guessing at their intentions until the last moment, then strike before we have time to prepare against their offensive. They must attempt something on this front, even if it is only with the hope of spoiling what they believe to be our plans."

Wanted to Force Peace
It has been reported that the Kaiser had some idea of forcing peace after a smashing invasion of Russia, after the fall of Verdun and after the Russian adventure, but as Russia was not smashed and Verdun did not fall his peace move was postponed until Bucharest was taken. Now German rage against France and England because of their reply to President Wilson's peace note, is such that the popular feeling is that Field Marshal Hindenburg and Mackensen should drive against the Allies on the west and make them listen to reason as they understand it.

Furthermore, it is reported that the situation in Germany is much worse than the outside world has been led to believe. Friction is said to be great between the heads of the various German states. The country people are described by neutrals as being bitter against the people living in the towns because they believe the latter are faring better during the hard times produced by the war, than they.

Now or Never
It is now or never with Germany, according to the belief of many. She must win or lose within the next few months, and as the western front is coming more and more to be considered as theme of the war's settlement, an offensive in the spring, or even earlier, is expected.

That Germany at the last moment will bring out her navy for one titanic struggle for supremacy on the sea, is also the opinion of many on the theory that a navy becomes obsolete anyway after a few years and if things go badly on land Germany might as well risk her fleet too, as a gambler his last dollar, it being of little use alone.

POTATOES HOISTED, FIVE CENTS POUND IS NOW THE PRICE

All northern and fancy grades of potatoes jumped to 5 cents a pound in Los Angeles yesterday, establishing a new altitude record for this commodity. This price had been expected by the trade, but not so suddenly, and many retailers were caught unprepared for it. Supplies all over the country are awfully short and this is the reason advanced by the dealers for the present level of values. There is no doubt but that there is a great deal of truth in what they say, but on the other hand, the advances in the produce market of this and other cities have been too abrupt to have been occasioned by natural causes.

Manipulation has entered into the situation to a large extent and holders of potatoes are today endeavoring to emulate the example of the brokers who were so successful in engineering the onion "corner."

According to reports from Stockton there were only 300 cars of potatoes in that shipping point today as compared to a usual stock of 3000 cars. Other distributing centers have the same story to tell and use the statement about the short supplies to raise their prices from week to week, and lately, from day to day. However, there is a limit to the gullibility of the public.

As long as the consumer will cheerfully pay out his hard-earned money for potatoes, no matter what price he is asked, just so long will the speculators in that commodity have a picnic.

There are many food commodities that can be substituted for potatoes today at a much lower cost. Rice, for instance, can be had for 3¢ to 4¢ a pound, and there is more nourishment in one pound of rice than there is in five pounds of potatoes.

Lemons were advanced 25 cents a box for all kinds and the best grades of oranges have been moved up 25 cents a packed box. Vegetables are scarce and prices prohibitive.

At yesterday morning's session of the Produce Exchange all classes of eggs dropped. Fresh extras went to 29¢ a dozen, case count to 27¢ and pullets to 26¢.

HOW TO CHECK THAT COLD
When it is painful to breathe and fever sends chills up and down your back, you are in for a cold. A timely dose of Dr. Bell's Fine Tar Honey will stop the sneezes and sniffles. Croup, whooping cough and chronic bronchial affections quickly relieved. At all Druggists, 25c.

Dr. Enoch, phone 602W, 411½ Main.

BY H. C. HAMILTON
(United Press Staff Correspondent)
NEW YORK, Feb. 20—With all the cracks putted and the broken legs as good as ever, the Yankees will get away to another flying start in their hunt for a pennant. The first Yankee squad will leave New York Saturday for Macon and the balance of the team will follow a week later.

The Yanks deteriorated from a pennant possibility last season to a hospital squad that had a hard time staying in the first division. This year everything will be all patched and ready when training starts.

Donovan has just as fine a looking squad of players to start this year as those who opened the season a year ago. If anything, the layout for 1917 surpasses that of the preceding annum.

Pipp More Finished
Walter Pipp, home run king of the American league, is a more finished ball player than a year ago, and he will land the first basing job without any opposition.

Fritz Maisel is being groomed for a shot at second base and he is expected to outshine Joe Gedeon, the flivver of a year ago, to such an extent that Joe will drift back to AA classification. Roger Peckinpaugh, a splendid fielder and an excellent hitter when hits are needed, will be stationed again in the shortfield.

At third base Home Run Frank Baker, the pride of Maryland, has his job cinched, and there are no broken ribs to interfere with his work. He will report with the second squad. While his hitting last year was not up to the mark in former years, this is attributed to the injury he received when he crashed into the grandstand at the Polo Grounds and broke up a few ribs.

Angel Aragon, utility at third base last year; Paddy Bauman, who also filled in a few crevices, and Charley Mullen, star of the utility boys, will be on hand to get ready for any emergency. Donovan has promised a complete second line defense for this year's efforts.

Walters Main Catcher
Al Walters, sensational young catcher, will be the mainstay of the catching staff again this year, and he will have lots of assistance from Alexander and Leslie Numamaker. This is one of the brightest spots in the Donovan clan.

As outfielders there will be Lee Magee, Hughie High, Tim Hendryx, and Frank Gilhocley. Hendryx, by the way, gave promise last year of making some of the others step some to retain their places.

The pitching staff is a thing to dream about. With a year of experience together tucked away with the confidence of a young baseball club behind them, this staff should blaze the way this year with little trouble.

Two of the greatest southpaws—young ones—in the game are on the Yankee payroll in the persons of George Mogridge and Nick Cullop. Mogridge is not a youngster in the true sense of the word, having been in the majors several times before. He never flashed his real capabilities, however, until he landed with the Yankees, and he suddenly has blossomed into a truly great hurler. Cullop suffered an injury to his knee last year that laid him up for a while, but he has written that he is ready for duty just as soon as his salary demands are met.

Other Hurlers
Bob Shawkey, Slim Love, Ray Fischer, Urban Shocker, Al Russell, and Ray Caldwell—it is hoped—will make up the balance of the regular hurling staff. Enough to drive any world's champions to drink if injuries don't smash up the club again.

Bill Piercy and Dan Tipple, two splendid prospects, will be given thorough trials again this year, in addition to Ross, Enwright, McGraw, Ferguson and Monroe.

NEVADA COMPANY MUST PAY CAL. TAX, RULING

SACRAMENTO, Cal., Feb. 20—A foreign corporation which maintains an office and bank deposit in California can be designated as a company doing business in California, and therefore be subject to the state license tax, the attorney general held in an opinion today.

The question arose in the case of the Western Finance Co. of Nevada, which claimed exemption from the tax on the ground that it was not doing business in California. The company, however, has a branch office and a bank deposit in San Francisco.

DON'T FUSS WITH MUSTARD PLASTERS!

Musterole Works Easier, Quicker and Without the Blister

There's no sense in mixing a mess of mustard, flour and water when you can easily relieve pain, soreness or stiffness with a little clean, white Musterole.

Musterole is made of pure oil of mustard and other helpful ingredients, combined in the form of a pleasant white ointment. It takes the place of out-of-date mustard plasters, and will not blister.

Musterole usually gives prompt relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

Tickets honored on Pacific Electric cars for connection with Southern Pacific trains.

A Question of Dignity

A check account adds to your repute in this community. It is a mark of dignity and inspires respect on the part of those with whom you do business.

Contrast the man with a bank account, who is in position to pay his bills by check, with the man who pays from "hand to mouth" as it were.

Begin an account with the Farmers and Merchants National Bank, or the Home Savings Bank of Santa Ana. We'll be glad to give you all the needed assistance and advise you impartially concerning your investments and how to save.

Take Notice Ranchmen

Use Jackson's Pocket Gopher and Squirrel Exterminator. It is cheap, easy to handle and does the work. Or the Santa Ana Compounding Company, 908 West Fifth street, will contract your land, guaranteeing to kill all animals on the land or no pay.

READ TESTIMONIAL

Santa Ana, Cal., Dec. 12, 1916.
Having an orange orchard under my care, near Anaheim, in which the Pocket Gophers were doing great damage in spite of all I could do—recently girdling six trees just coming into bearing—I wish to state that after using Jackson's Pocket Gopher and Squirrel Killer, something over three weeks ago, I haven't seen a sign of a Pocket Gopher working on the land since, and I think that Jackson's Pocket Gopher Killer is the cheapest, easiest to handle and best thing of its kind on the market, and cheerfully recommend it to anyone bothered with these pests.

Indorsed by Robert K. Bunch, foreman on Red Top Ranch, Santa Ana, Calif.; C. W. White, 630 Van Ness Avenue, Santa Ana, Calif.; L. C. Fox, Moorepark, Calif.; E. C. Graham, foreman of P. S. Packing House, Moorepark, Calif.; R. E. Dickerson, Santa Ana. We have hundreds of others. For sale by
